

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

DUNN WMA Institutional UCITS Fund the Sub-Fund

a sub-fund of MontLake UCITS Platform ICAV the ICAV managed by Waystone Management Company (IE) Limited the Manager

GBP Retail Pooled Shares (IE00B6R2TF82)

Objectives and Investment Policy

Investment Objective

The Sub-Fund's objective is to generate returns for investors over a five year period.

The Sub-Fund will seek to achieve its objective by taking exposure to a systematic program called the DUNN WMA Institutional Program (the "Strategy").

Investment Policy

The Strategy which is 100% methodical provides exposure to the agricultural, energy, metal, equity (through equity indices and the CBOE Volatility Index), fixed income, currency, interest rate sectors (the "Sectors"). The Strategy seeks to identify and exploit price trends in the Sectors over a range of time periods.

The Sub-Fund mainly uses futures and structured notes to gain exposure to the Sectors.

Costs incurred in the use of financial derivative instruments may have a negative effect on the Sub-Fund's performance. These costs are in addition to those listed in "Charges" below.

The Sub-Fund's investment policy works best over a medium to long term time frame.

Subscription and Redemption

You can sell your shares any day that banks are open in Ireland, France, United Kingdom and United States. You must submit your application to

the Sub-Funds Administrator before 1.00 p.m. on the previous business day.

Income

Your shares do not pay income, but instead the Sub-Fund reinvests such income to grow your capital.

Fund Currency

As your shares are denominated in GBP and the Sub-Fund is valued in USD, forward contracts are used to attempt to eliminate the effects of changes in the currency exchange rates.

Benchmark

The Sub-Fund is actively managed meaning that the investments are made on a fully discretionary basis. The Sub-Fund may measure its performance relative to the Barclay SG CTA Index for reference or investor communication purposes. The Sub-Fund does not operate any form of target to outperform a benchmark index.

Investment Horizon

Recommendation: the Sub-Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Risk and Reward Profile

Why is the Sub-Fund in the specific category?

The risk category for this Sub-Fund is set at 7. It is calculated in line with EU regulations and is based on the risk limit for the Sub-Fund.

Risk Disclaimer

A **category 1** Sub-Fund is not a risk-free investment - the risk of losing your money is small, but the chance of making gains is also limited. With a **category 7** Sub-Fund, the risk of losing your money is high but there is also a chance of making higher gains. The seven-category scale is complex. For example, a category 2 Sub-Fund is not twice as risky as a category 1 Sub-Fund. The risk category shown is not guaranteed and may change over time.

When categorising the Sub-Fund, it may happen that not all material risks were fully captured in the methodology:

Counterparty Risk: The investment objective of the Sub-Fund depends on the counterparty to the structured notes honouring its commitments. A counterparty may fail in paying proceeds of a contract to the Sub-Fund which will impact your investment.

Currency and Hedging risk: The Sub-Fund will be exposed to different currencies and changes in foreign exchange rates. The Sub-Fund's

hedging methodology is designed to minimise the impact of changes in foreign exchange rates however changes in exchange rates may still cause the value of investments to decrease and could create losses.

Investment Strategy Risk: The Sub-Fund's success is dependent on the performance of the Strategy. The strategy is expected to have high volatility. The different markets traded or individual positions held by the Sub-Fund may be highly correlated to one another at times and may expose the Sub-Fund to significant losses. Trading decisions are based on mathematical analysis of technical factors related to past performance and market activity such as price fluctuations or trading volume variations. The profitability of such a strategy depends on the occurrence in the future of significant, sustained price moves.

Derivatives and Leverage Risk: The Sub-Fund may use derivatives to create leverage for taking short positions or for other investment and hedging purposes. Whilst this is intended to help the Sub-Fund to manage risk or to take investment positions more efficiently or effectively than could be done otherwise, leverage and shorting can involve the risk of higher volatility, especially if some of the expected offsetting positions between long and short investments do not work as expected, and the Sub-Fund may be exposed to additional risks and costs as a result.

The Sub-Fund places significant reliance on its relationships with third parties and the loss of these services may adversely affect the Sub-Fund. For a more detailed explanation of risks, please refer to the "Special Considerations and Risk Factors" section of the prospectus.

Charges

The charges you pay are used to pay the costs of running the Sub-Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after the investment	
Entry charge	5.00%
Exit charge	None
This is the maximum that may be deducted from the investor's money before it is invested.	
Charges debited to the Fund over a year	
Ongoing charge	1.36%
Charges debited to the Fund under certain specific conditions	
Performance fee	The performance fees are calculated in accordance with the methodology described in the prospectus using a rate of 25.00% of any returns the Fund achieves above the previous highest NAV. In the Fund's last financial year the performance fee was 0.60% of the Fund.

Any entry/exit charge shown is a maximum figure. Where charges are shown in some cases you might pay less; you can find this out from your financial advisor or distributor.

The ongoing charges figure is based on expenses for the twelve months ending December 2023. This figure may vary from year to year. It excludes portfolio transaction costs and performance fees.

You can find out more details about the charges and how they are calculated by looking at the ICAV's prospectus and the Sub-Fund's supplement which are available at www.waystone.com.

Past Performance

The past performance takes account of all charges and costs. Past performance is not a reliable indicator of future results.

The Sub-Fund came into existence in 2011.

This Share class was launched on 29 June 2016.

The value of the Share Class is calculated in GBP.

Practical Information

- The Sub-Fund's assets are held with its depositary, Northern Trust Fiduciary Services (Ireland) Limited.
- DUNN WMA Institutional UCITS Fund is a sub-fund of MontLake UCITS Platform ICAV. The assets of this Sub-Fund are segregated from other sub-funds on MontLake UCITS Platform ICAV.
