M&G UK Sustain Paris Aligned Fund

a sub-fund of M&G Investment Funds (2)
Sterling Class I – Income shares ISIN no. GB00B3R2HL98
Managed by M&G Securities Limited

Objective and investment policy

Objective:

The fund aims to:

- provide a combination of capital growth and income, net of the Ongoing Charge Figure, that is higher than the FTSE All-Share Index over any five year period; and
- invest in companies that contribute towards the Paris Agreement climate change goal.

Core investment: At least 80% of the fund is invested in shares of companies, across any sector and of any size, that are based, or do most of their business, in the UK. The fund is concentrated and usually holds shares in fewer than 50 companies.

The fund invests in assets that meet the ESG Criteria and Sustainability Criteria. Norms, sector and/or values-based exclusions apply to investments. Other investments: The fund may invest in other funds (including funds managed by M&G) and cash or assets that can be turned into cash quickly.

Derivatives usage: To reduce risk and costs.

Strategy in brief: The fund employs a disciplined bottom up stock picking approach to analyse companies for their potential to deliver sustainable growth. Relevant factors include high returns, robust competitive advantages, balanced capital allocation and an ESG aligned culture. Companies which contribute to the global warming objectives of the Paris Agreement, by either having a Low and/or a Reducing Carbon Intensity, or delivering solutions to the challenge of climate change, are selected. Low Carbon Intensity means a carbon intensity lower than 50% of the weighted average carbon intensity of the benchmark. Sustainability considerations are fully integrated into the investment process.

Benchmark: FTSE All-Share Index

The benchmark is the target for the fund's financial objective and is used to measure the fund's financial performance. The index has been chosen as the fund's benchmark as it best reflects the scope of the fund's investment policy. The benchmark is also used to define what a Low Carbon Intensity Company is. The fund manager considers the fund's weighted average carbon intensity against the benchmark when constructing the portfolio, but the benchmark does not otherwise constrain portfolio construction. The fund is actively managed and within given constraints, the fund manager has freedom in choosing which investments to buy, hold and sell in the fund. The fund's holdings may deviate significantly from the benchmark's constituents, and as a result the fund's performance may deviate materially from the benchmark.

For unhedged and currency hedged share classes, the benchmark is shown in the share class currency.

Additional information can be found on the M&G website, including:

- A [glossary](#) providing an explanation of some terms used in this document.

- periodic reports on the fund's non-financial objective.

Other information

You can buy and sell shares in the fund on any business day. Instructions received before 12 noon will be dealt at that day's price.

Any income from the fund may be paid out to you semi-annually.

In addition to the charges set out in the charges section, the fund will incur portfolio transaction costs which are paid from the assets of the fund.

Recommendation: This fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Risk and reward profile

- The above risk and reward indicator is based on historical data and may not be a reliable indication of the future risk profile of this share class. This Share Class is categorised in risk class 6 because its Net Asset Value has shown high rises and falls in value historically.
- The risk number shown is not guaranteed and may change over time.
- The lowest risk number does not mean risk free.

The main risks that could affect performance are set out below:

- The value and income from the fund's assets will go down as well as up. This will cause the value of your investment to fall as well as rise. There is no guarantee that the fund will achieve its objective and you may get back less than you originally invested.
- The fund holds a small number of investments, and therefore a fall in the value of a single investment may have a greater impact than if it held a larger number of investments.
- The fund can be exposed to different currencies. Movements in currency exchange rates may adversely affect the value of your investment.
- In exceptional circumstances where assets cannot be fairly valued, or have to be sold at a large discount to raise cash, we may temporarily suspend the fund in the best interest of all investors.
- The fund could lose money if a counterparty with which it does business becomes unwilling or unable to repay money owed to the fund.
- Operational risks arising from a failure or delay in operational processes and systems, or the failure of a third party provider may affect the value of your investments. Where this results in compensation needing to be paid, this may be paid some time after the original loss is experienced.

Further details of the risks that apply to the fund can be found in the fund's Prospectus at www.mandg.co.uk/literature

Charges

The charges shown in the table are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	0.00%
Exit charge	0.00%
This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.	
Charges taken from the fund over a year	
Ongoing charge	0.73%
Charges taken from the fund under certain specific conditions	
Performance fee	None

The entry and exit charges shown are the maximum figures and, in some cases, you may pay less. You can find out the exact charges which apply to your investment by contacting your financial adviser or distributor or, if you have invested directly with us, you can contact us using the details given in the practical information section.

The ongoing charge is based on expenses for the period/year ending 30 November 2023. This figure may change from year to year. It excludes portfolio transaction costs. This figure includes extraordinary expenses and underlying charges for closed-ended-funds, such as investment trusts and Real Estate investment trusts.

For Income shares, the ongoing charge is taken from investments held in the fund's portfolio and not from the income these investments produce. The deduction of this charge will reduce the potential growth of your investment.

For more information on charges, please see the relevant sections of the Prospectus at www.mandg.co.uk/literature

Past performance

- Past performance is not a guide to future performance.
- Performance calculation includes UK taxes. It does not take into account the entry and exit charges but does take into account the ongoing charge and the Performance fee, as shown in the charges section.
- The fund launched on 17 December 1968 and the Sterling Class I Income share class launched on 03 August 2012.
- Performance is calculated using Sterling Class I Income shares.
- Benchmark performance has been calculated in GBP.
- The fund changed its name, investment objective and investment strategy – as reflected in the Objective and Investment Policy section on page 1 – on 13th July 2022. Prior to this date, the fund was named M&G UK Select Fund. Fund performance before this date was therefore achieved under different circumstances.
