JPMorgan Fund ICVC

ISIN: GB00B235HR15

JPM Europe (ex-UK) Sustainable Equity Fund C - Net Income

a Share Class of JPMorgan Fund ICVC – JPM Europe (ex-UK) Sustainable Equity Fund. The Authorised Corporate Director ("ACD") is JPMorgan Funds Limited

Objectives, Process and Policies

INVESTMENT OBJECTIVE
The Fund aims to provide capital growth over the long- term (5-10 years) by investing at least 80% of the Fund's assets in the shares of European Sustainable Companies (excluding the UK) in any economic sector, or companies that demonstrate improving sustainable characteristics. Sustainable Companies are those that the Investment Manager believes to have effective governance and superior management of environmental and social issues (sustainable characteristics).

INVESTMENT PROCESS
Investment approach

- Uses a bottom-up stock selection process.
- Uses the full breadth of the eligible equity investment universe through a combination of fundamental research insights and quantitative analysis.
- Integrates ESG aspects to identify companies with strong or improving sustainability characteristics.

Benchmark uses and resemblance

- The Fund is actively managed. The Benchmark is a Performance Comparator and the Fund will bear some resemblance to its Benchmark. The Benchmark has been chosen as it reflects the main investment universe and strategy for the Fund.

POLICIES
Main investment exposure At least 80% of assets invested in equities of Sustainable Companies, or companies demonstrating improving sustainable characteristics, that are domiciled, or carrying out the main part of their economic activity, in a European country (excluding the UK). The Fund may invest in small capitalisation companies. The Fund will focus on Sustainable Companies rather than companies that demonstrate improving sustainable characteristics (which are companies with a clear timeline for improvement and tangible and measurable ways to demonstrate that improvement identified during the sustainability assessment process). The Investment Manager identifies companies, that in its opinion meet the Fund's sustainable investment objective through a sustainability assessment process. The process has three steps: 1) the exclusionary framework, 2) the identification of stocks with attractive sustainability characteristics using a proprietary ESG framework and company engagement, and, 3) the assessment of a company's underlying fundamentals. The Fund may also invest up to 20% of its assets in equities of companies that are considered less sustainable than those described above. Step 1: The Fund excludes certain sectors, companies / issuers or practices from the investment universe based on specific values or norms-based criteria. The exclusion policy for the Fund is available at www.jpmmorgan.co.uk/investor. In addition the lowest scoring companies on each individual pillar (E, S and G) are excluded from the investable universe and the lowest scoring companies of the remaining universe are

also excluded. These exclusions are based on the Investment Manager's proprietary ESG score. Step 2: The identification of Sustainable Companies, and companies demonstrating improving sustainable characteristics, is based on fundamental analysis and ongoing engagement with companies to understand how they consider ESG issues and also to try and influence their behaviour and encourage best practice. Fundamental analysis is used to better understand sustainability risks and opportunities that may impact a company. This analysis is also an important driver behind active company engagement when seeking to positively influence business practices to improve sustainability. Further information on stewardship and engagement with companies is available at www.jpmmorgan.co.uk/investor. A core part of this analysis is based on a proprietary ESG framework to assess each company's exposure to, and performance on, material sustainability issues. The framework comprises of:

- A quantitative score based on key ESG factors across sub-industries
- A fundamental score based on JPMAM research analysts' answers to a checklist questionnaire with E, S and G pillars.

Each stock in the investable universe is ranked on each underlying pillar and is applied an overall ESG score. The ESG score is part of the assessment of a company's ESG characteristics, and allows the Investment Manager to track improvements and deterioration in these characteristics over time. Step 3: An analysis of the company's fundamental information uses both fundamental and quantitative research and seeks to understand the style characteristics of each company to identify whether it has attractive value, quality, and/or momentum characteristics. If a company ceases to qualify as a Sustainable Company, the Investment Manager will engage with the company to determine the circumstances for ceasing to qualify. If the company can resolve the matter in the short-term it may continue to be held in the portfolio. However, if not the security will be sold.

Risk and Reward Profile

The above rating is based on the historic volatility of the Net Asset Value of the Share Class over the last five years and may not be a reliable indication of the future risk profile of the Share Class. The risk and reward category shown above is not guaranteed to remain unchanged and may change over time. A Share Class with the lowest risk rating does not mean a risk-free investment. **Why is this Share Class in this category?** This Share Class is classified in category 6 because its Net Asset Value has shown high fluctuations historically. **OTHER MATERIAL RISKS**
The Fund is subject to **Investment risks** and **Other associated risks** from the techniques and securities it uses to seek to achieve its objective. The table on the right explains how these risks relate to each other and the **Outcomes to the Shareholder** that could affect an investment in the Fund. Investors should also read [Risk Descriptions](#) in the Prospectus for a full description of each risk.
