RISK AND REWARD PROFILE

Potentially lower reward ← → **Potentially higher reward**

Lower risk — Higher risk

1	2	3	4	5	**6**	7

- this indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.
- the risk category shown is not guaranteed to remain unchanged and may shift over time.
- the risk and reward indicator table demonstrates where a Fund ranks in terms of its potential risk and return. The higher the rank the greater the potential reward but the greater the risk of losing money. The lowest category does not mean 'risk free'.
- the Fund appears as a "6" on the scale. This is because the Fund invests in the shares of companies whose values tend to vary more widely than other asset classes.
- the Fund is expected to invest up to 10% of its assets in securities that are not readily tradeable (unlisted securities), which are fair valued by the ACD and may be less liquid than listed securities.

The indicator does not take account of the following risks of investing in the Fund:

Counterparty Risk: the insolvency of any institutions providing services such as safe-keeping of assets or acting as counterparty to derivatives or other instruments may expose the Fund to financial losses.

Currency Risk: the fund can be exposed to different currencies therefore changes in exchange rates may decrease the value of your investment.

Liquidity Risk: investments in illiquid assets, where there is no active market, may be more difficult to buy and sell and their prices may also be subject to large short term swings.

Market Risk: the value of investments and the income derived from them may fall as well as rise and you may not get back the original amount invested. Over time, inflation may erode the value of investments.

Infectious viruses: these may pose significant threats to human health and may be highly disruptive to global economies and markets. The economic and market disruptions caused by infectious viruses could impact the value of your investment and any distributions paid.

For full details of the risks, including Fund specific risks, please see Section 5 of the Fund's prospectus.
