

Key investor information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Alquity Africa Fund, GBP Y Class Institutional/Reporting Shares (LU0727491382)

a sub-fund of Alquity SICAV

Management Company: East Capital Asset Management S.A.

Objectives and investment policy

Objectives

The sub-fund aims to achieve long-term capital appreciation for investors, by investing in African securities. The sub-fund promotes, among others, environmental, social and/or governance characteristics within the meaning of article 8 of Regulation (EU) 2019/2088 of 27 November 2019 on sustainability-related disclosures in the financial services sector.

Investment policy

The sub-fund will invest at least 70% of its net assets in the shares of companies that are listed in the regulated African stock exchanges.

The sub-fund may also invest in shares of companies listed on other regulated stock exchanges, which derive over 50% of their revenue or profit from the African continent.

Although the sub-fund will invest mainly in shares of the companies referred to above, it may also invest in the same companies via fixed income investments such as bonds.

The sub-fund may, on an ancillary basis, hold cash and equivalents.

The sub-fund may invest in money market instruments as set out in the prospectus.

Although permitted to do so, the sub-fund will not, in practice, invest in financial derivatives.

The sub-fund will not borrow to invest and nor will it engage in lending of securities or repurchase agreements.

Sector and country allocations are closely monitored, but the sub-fund has flexibility in its investment strategy regarding sector and country allocations. As part of the risk management process, the sub-fund will ensure exposure to a single stock does not exceed 10% of the net assets of the sub-fund.

The investment process of the sub-fund encompasses the consideration of environmental, social and governance (ESG) factors.

The sub-fund is unconstrained, with a thematic process that incorporates ESG (environmental, social, governance). The ESG analysis eliminates over 20% of potential stocks that have passed our thematic filter. Furthermore, in order to meet our desired portfolio characteristics and tracking error, we may optimise the portfolio with reference to a relevant index.

The sub-fund is actively managed without reference to a benchmark.

The reference currency of the sub-fund is expressed in USD.

The currency of the share class is expressed in GBP.

The investor may subscribe and redeem shares on each bank business day in Luxembourg and the United Kingdom.

These shares are capitalisation shares. Income and capital gains are reinvested.

Recommendation

This fund may not be appropriate for investors who plan to withdraw their money within 3-5 years.

Risk and reward profile

The category 5 means a rather high risk and consequently rather high potential losses and gains.

The risk category has been determined on the basis of historical data and may not be a reliable indication of the future risk profile. The risk and reward category shown does not necessarily remain unchanged and the categorisation of the fund may shift over time.

The lowest category of the risk indicator does not mean a risk-free investment. Repayment of the initial investment is not guaranteed.

Which materially relevant risks are not adequately captured by the synthetic indicator?

- **Currency risk:** the fund may have holdings which are denominated in different currencies and may be affected by movements in exchange rates. Consequently, the value of the Fund's investments and the income from them may rise or fall in line with exchange rates.
- **Emerging and Frontier markets risk:** the risk related to investing in countries that have less developed political, economic, legal and regulatory systems, and that may be impacted by political/economic instability, lack of liquidity or transparency, or safekeeping issues.
- **Derivatives:** this fund can use derivatives in order to meet its investment objective. The use of derivatives may result in greater fluctuations in the

value of the Fund, and may increase the magnitude of any losses.

- **Liquidity risk:** the risk that arises when adverse market conditions affect the ability to sell assets when necessary. Reduced liquidity may have a negative impact on the price of the assets.
- **Operational risk:** the risk of losses resulting from errors or failures arising from the people, systems, service providers or processes upon which the Fund depends.
- **Legal or Tax risk:** arising from a change in legal regulations, tax rules of the application of them.
- **ESG risk:** the security selection made in accordance with such criteria can involve a significant element of subjectivity. ESG factors incorporated in the investment processes may vary depending on the investment themes, asset classes, investment philosophy and subjective use of different ESG indicators governing the portfolio construction or its underlying investments. Accordingly, there is no assurance all investments of a given sub-fund meet all ESG criteria. The investment process for the fund encompasses the consideration of environmental, social and governance (esg) factors to ensure that investments made by the fund contribute to long term sustainable economic growth and progress towards the UN Sustainable Development Goals. This consideration of ESG issues eliminates a minimum of 20% of the stocks from the fund's initial universe.

For further information concerning the risks of the sub-fund, please consult the prospectus of the fund, which is available at the registered office of the Management Company and on www.alquity.com.

Charges

The charges you pay are used for the operation of the sub-fund, including charges for its marketing and distribution. These charges reduce the potential investment growth.

One-off charges taken before or after you invest	
Entry charge	Up to 5%
Exit charge	0.00%
This is the maximum that might be taken out of your money before it is invested and before the proceeds of your investment are paid out.	
Charges taken from the fund over a year	
Ongoing charge	4.27%
Charges taken from the fund under certain specific conditions	
Performance fee	None

The entry and exit charges shown correspond to a maximum percentage which might be deducted from the investor's capital invested into the fund. In some cases, the investor might pay less. The investor may contact his financial adviser or intermediary to be informed on the actual entry and exit charges.

The ongoing charges relate to all annual charges; they were calculated on 31.12.2023. The ongoing charges may vary from year to year.

The figure of the ongoing charges excludes:

- Securities transaction charges, except for the charges related to the purchase and the sale of target funds.

For further information concerning charges, please consult the heading "Charges and expenses" of the fund's prospectus, which is available at the registered office of the Management Company and on www.alquity.com.

Past performance

All charges and fees, except for the entry and exit charges, were taken into account.

The past performance was calculated in GBP.

Past performance is not a reliable indicator of future performance.

The sub-fund was created in 2010.

This share class was created in 2012.
