Objectives and Investment Policy

Objective

The Fund's investment objective is to maximise total return consisting of income and capital appreciation.

Investment Policy

• The Fund will invest at all times at least two-thirds of its assets in debt securities that are (i) listed or traded on regulated markets primarily in the following countries; and (ii) denominated in currencies of, or issuers located in, primarily the following countries: the US, Canada, Australia, Japan, Austria, Belgium, Finland, France, Germany, Greece, Ireland, Italy, Mexico, the Netherlands, Portugal, Spain, Denmark, Sweden, Switzerland, the United Kingdom, New Zealand, Norway, Hungary, Poland, and the Czech Republic. The Fund may also invest in debt securities that are listed or traded on regulated markets located in other developed countries as set out in the Prospectus. The Fund seeks to achieve the investment objective by investing principally in debt securities issued or guaranteed by national governments, their agencies or instrumentalities and political sub-divisions and debt securities of supranational organisations.

• All debt securities purchased by the fund will be either rated investment grade or if unrated deemed by the investment manager to be of comparable quality at the time of purchase.

• The Fund may invest up to 20% in bonds that are not represented in the FTSE World Government Bond Index but are still highly rated at the time of purchase.

• The Fund may invest in derivatives (financial instruments whose value is derived from the value of other assets), to help try to achieve the fund's objective as well as to reduce risk or cost or to generate additional growth or income for the fund.

• This is an Article 8 fund under the EU Sustainable Finance Disclosure Regulation.

Share Class Policy:
• For this share class, the investment manager intends to index hedge "(IH)" the currency exposure, which means that the share class will retain a degree of exposure to the currencies that are significant to the fund's investment strategy in comparison to the currencies of the relevant index.

• **Benchmark**: FTSE World Government Bond Index

• **Manager's Discretion**: The Fund is actively managed, and the investment manager has discretion in selecting investments within the fund's objective and investment policies. The investment manager seeks to provide an average annualised return for the fund, on a gross basis over rolling 5-year periods, equal to the return of the benchmark plus 2%. There is no guarantee that the investment manager will meet its target, and the targeted return does not take into account the fees charged, which will reduce the fund's return.

Fund's Base Currency: USD
Share Class Currency: GBP

• **Transaction Costs**: The Fund bears costs in buying and selling investments, which may have a material impact on the fund's performance.

Dealing Frequency: You can buy, sell and switch your shares on each day that the New York Stock Exchange is open for business.

Minimum Initial Investment: For this share class the minimum initial investment is GBP 10,000,000.

Treatment of Income: For this share class all, or some portion of, net income is declared and paid semi-annually to shareholders.

Risk and Reward Profile

1	2	3	**4**	5	6	7

Lower risk — Higher risk
Potentially lower rewards — Potentially higher rewards

The indicator is based on the volatility of the returns (past performance) of the reported share class (calculated on a 5 year rolling return basis). Where a share class is inactive / has less than 5 years of returns, the returns of a representative benchmark are used.

There is no guarantee that the fund will remain in the indicator category shown above and the categorisation of the fund may shift over time. Historical data, which is used in calculating the indicator, may not be a reliable indicator of the future risk profile of this fund.

The lowest category does not mean a risk-free investment.

The fund does not offer any capital guarantee or protection and you may not get back the amount invested.

The fund invests mainly in a diversified portfolio of bonds from various countries and sectors, along with exposure to various currencies. As a result, the performance of the Fund can fluctuate over time.

The fund is subject to the following risks which are materially relevant but may not be adequately captured by the indicator:

Bonds: There is a risk that issuers of bonds held by the fund may not be able to repay the investment or pay the interest due on it, leading to losses for the fund. Bond values are affected by the market's view of the above risk, and by changes in interest rates and inflation.

Concentrated fund: The fund invests in fewer companies than other funds which invest in shares usually do. This means that the fund does not spread its risk as widely as other funds and will therefore be affected more if an individual company has significant losses.

Derivatives: The use of derivatives can result in greater fluctuations of the fund's value and may cause the fund to lose as much as or more than the amount invested.

Fund counterparties: The fund may suffer losses if the parties that it trades with cannot meet their financial obligations.

Fund currency: Changes in exchange rates between the currencies of investments held by the fund and the fund's base currency may negatively affect the value of an investment and any income received from it.

Fund operations: The fund is subject to the risk of loss resulting from inadequate or failed internal processes, people or systems or those of third parties such as those responsible for the custody of its assets, especially to the extent that it invests in developing countries.

Interest rates: Changes in interest rates may negatively affect the value of the fund. Typically as interest rates rise, bond values fall.

Liquidity: In certain circumstances it may be difficult to sell the fund's investments because there may not be enough demand for them in the markets, in which case the fund may not be able to minimise a loss on such investments.

Sustainability: The fund's integration of sustainability risks in the investment decision process may have the effect of excluding profitable investments from the investment universe of the fund and may also cause the fund to sell investments that will continue to perform well. A sustainability risk could materialise due to an environmental, social or governance event or condition which may impact the fund's investments and negatively affect the returns of the fund.

Index hedged class currency: The value of your investment may fall due to changes in the exchange rate between the currency of your share class and the currencies that are significant to the fund. The investment manager will try to protect the value of your investment against such changes, but it may not succeed. Also, unlike other hedged share classes, the index hedged share classes retain a degree of exposure to the currencies that are significant to the Fund's investment strategy in comparison to the currencies of the relevant index.

For further explanation on the risks associated with an investment in the fund, please refer to the section entitled "Risk Factors" in the base prospectus and "Primary Risks" in the fund supplement.

Charges

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	none
Exit charge	none
This is the maximum that might be taken out of your money before it is invested (entry charge) and before the proceeds of your investment are paid out (exit charge).	
Charges taken from the Fund over a year	
Ongoing charge	0.75%
Charges taken from the Fund under certain specific conditions	
Performance fee	none

Entry and exit charges shown are the maximum that might be taken out of your money. In some cases, you might pay less and you should speak to your financial adviser about this.

The ongoing charge is based on expenses for the 12 month period ending December 2023. This figure may vary over time.

For more information about charges, please see the "Fees and Expenses" sections of the base prospectus and fund supplement.
