Schroder European Sustainable Equity Fund

a sub-fund of Schroder Investment Fund Company

Class L Income GBP (GB00B94WQJ53)

This fund is managed by Schroder Unit Trusts Limited, which is a member of the Schroders Group.

Objectives and investment policy

Objectives

The fund aims to provide capital growth in excess of the FTSE World Series Europe ex UK (Gross Total Return) Index (after fees have been deducted) over a three to five year period by investing in equity and equity related securities of European companies, excluding the UK, which meet the investment manager's sustainability criteria.

Investment Policy

The fund is actively managed and invests at least 80% of its assets in a concentrated range of equity and equity related securities of European companies, excluding the UK, which meet the investment manager's sustainability criteria (please see the fund characteristics section of the Prospectus for more details). The fund typically holds 30 to 50 companies. The fund maintains a higher overall sustainability score than the FTSE World Series Europe ex UK (Gross Total Return) Index, based on the investment manager's rating system. More details on the investment process used to achieve this can be found in the fund characteristics section.

The fund does not directly invest in certain activities, industries or groups of issuers above certain limits listed under "Sustainability Information" on the fund's webpage, accessed via www.schroders.com/en/uk/private-investor/gfc.

The fund invests in companies that have good governance practices, as determined by the Investment Manager's rating criteria (please see the fund characteristics section for more details).

The fund may invest in companies that the investment manager believes will improve their sustainability practices within a reasonable timeframe, typically

up to three years.

The investment manager may also engage with companies held by the fund to challenge identified areas of weakness on sustainability issues. More details on the investment manager's approach to sustainability and its engagement with companies are available on the website. www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/.

The fund may also invest directly or indirectly in other securities (including in other asset classes), countries (including the UK), regions, industries or currencies, collective investment schemes (including Schroder funds), warrants and money market instruments, and hold cash.

The fund may use derivatives with the aim reducing risk or managing the fund more efficiently.

Benchmark

The fund's performance should be assessed against the target benchmark, being to exceed the FTSE World Series Europe ex UK (Gross Total Return) Index, and compared against the Investment Association Europe ex UK sector average return.

The investment manager invests on a discretionary basis and is not limited to investing in accordance with the composition of the benchmark.

Dealing Frequency

You may redeem your investment upon demand. This fund deals daily.

Distribution Policy

This share class pays income received from the fund's investments to you quarterly.

The risk and reward indicator

The risk category was calculated using historical performance data and may not be a reliable indicator of the fund's future risk profile.

The fund's risk category is not guaranteed to remain fixed and may change over time.

A fund in the lowest category does not mean a risk-free investment.

The fund is in this category because it can take higher risks in search of higher rewards and its price may rise and fall accordingly.

Risk factors

Performance risk: Investment objectives express an intended result but there is no guarantee that such a result will be achieved. Depending on market conditions and the macro economic environment, investment objectives may become more difficult to achieve.

Concentration risk: The fund may be concentrated in a limited number of geographical regions, industry sectors, markets and/or individual positions. This may result in large changes in the value of the fund, both up or down.

Sustainable Investing Risk: The fund applies sustainability criteria in its selection of investments. This investment focus may limit the fund's exposure to companies, industries or sectors and the fund may forego investment opportunities that do not align with its sustainability criteria chosen by the investment manager. As investors may differ in their views of what constitutes sustainability, the fund may invest in companies that do not reflect the beliefs or values of any particular investor.

Currency risk: The fund may lose value as a result of movements in foreign exchange rates, otherwise known as currency rates.

Derivatives risk: Derivatives, which are financial instruments deriving their value from an underlying asset, may be used to manage the portfolio efficiently. The fund may also materially invest in derivatives including using short selling and leverage techniques with the aim of making a return. A derivative may not perform as expected, may create losses greater than the cost of the derivative and may result in losses to the fund.

Liquidity risk: In difficult market conditions, the fund may not be able to sell a security for full value or at all. This could affect performance and could cause the fund to defer or suspend redemptions of its shares, meaning investors may not be able to have immediate access to their holdings.

Operational risk: Operational processes, including those related to the safekeeping of assets, may fail. This may result in losses to the fund.

Charges

| One-off charges taken before or after you invest | |
|---|-------|
| Entry charge | None |
| Exit charge | None |
| This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out. | |
| Charges taken from the fund over a year | |
| Ongoing charges | 0.87% |
| Charges taken from the fund under certain specific conditions | |
| Performance fee | |
| None | |

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The entry and exit charges shown are maximum figures and in some cases you might pay less. You can find out the actual entry and exit charges from your financial advisor.

The ongoing charges figure is based on the last year's expenses for the year ending December 2023 and may vary from year to year. The ongoing charge figure excludes portfolio transaction costs. The charges are mostly, if not exclusively, the Schroders Annual Charge (as may be discounted for retail share classes depending on the size of the fund) but certain additional expenses may be charged as set out in the prospectus. The Schroders Annual Charge (without any discount) for this share class of the fund is 0.85%. The fund's annual report for each financial year will include details on the exact charges made including any discounts.

Please see the prospectus for more details about the charges.
