

Non-UCITS retail scheme Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

EF 8AM Growth Fund, a sub-fund of EF 8AM Investment Funds

Class A Income Shares (ISIN GB00B9L5BC50)

The Fund is managed by WAY Fund Managers Limited

Investment Objective and Investment Policy

Objective:

The objective of the Fund is to achieve long-term capital growth.

Policy:

Through a growth investment management style, the EF 8AM Growth Fund will aim to operate within a volatility range* of between 15.0 and 19.5 and to achieve its objective through strategic asset allocation between a variety of asset classes, markets and strategies.

A minimum of 80% of the portfolio will be invested in carefully selected third party collective investment schemes and, as determined by the Investment Adviser, investment trusts. The Fund will only make investments into collective investment schemes where their net asset value calculations are scheduled on at least a monthly basis and where, at the time of investment by the Fund, the Investment Adviser is satisfied that the assets are fully liquid.

The Investment Adviser will endeavour to maintain within the portfolio a measure of diversification between lowly correlated asset classes.

The Fund will also be able to invest in equities, bonds, warrants, money market instruments, cash and deposits.

The use of derivatives and/or hedging transactions are permitted in connection with the efficient portfolio management of the Fund, and borrowing will be permitted under the terms of the Regulations.

The Authorised Corporate Director (ACD) does not intend to have an interest in any immovable property or tangible movable property.

*Based on annualised 12 month standard deviation.

Benchmark:

The appropriate comparator benchmark against which the performance of the Fund can be measured is the Investment Association (IA) Mixed Investment 40-85% Shares sector.

Other information:

- Investment in the Fund should be regarded as long-term, which is at least five years.
- There can be no guarantee that the objective of the Fund will be achieved.
- On encashment, particularly in the short-term, you may receive less than the original amount invested.
- In relation to share classes where there is an Entry Charge (see overleaf), the charge is deducted from your investment at the outset. Therefore, an equivalent rise in the value of shares is required before the original investment can be recovered. Various other charges accrue daily.
- The ACD carries out investors' requests, to buy, sell or switch, at 12:00 hours (UK time) on each business day (which excludes public holidays). If the ACD receives a request after 12:00 hours (UK time), the ACD will deal with it on the next business day.
- As you hold income shares, income that is available from the Fund is paid out to you twice a year.

Risk and reward profile

• This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund. • The risk and reward category shown is not guaranteed to remain unchanged and may shift over time. • The lowest category does not mean 'risk free'. • The indicator is not a measure of the risk that you may lose the amount you have invested. • The Fund is ranked as a "5" on the scale. This is because the Fund invests in collective investment schemes with exposure to equity securities which can experience high rises and falls. Please note that even the lowest risk class can lose you money and that extreme market circumstances can mean you suffer severe losses in all cases. The indicator above does not take account of the following risks of investing in the Fund: • The Fund invests indirectly in some overseas markets which carry a higher than average risk of investment and the Fund may have problems or delays in getting its investments back. • Investments may be made in assets

denominated in various currencies and the movements of exchange rates may have a spate effect, unfavourable as well as favourable, on the gains and losses otherwise experienced on such investments. • There is a credit risk, where the counterparty to a deal may default on repayment or not deliver its side of the deal. The Fund aims to minimise concentrations of credit risk by undertaking transactions with a large number of counterparties on recognised and reputable exchanges. The Fund will only buy and sell equity investments through brokers which have been approved as an acceptable counterparty. • The Fund is classed as a Non-UCITS Retail Scheme (NURS) and can have wider investment and borrowing powers than a UCITS scheme with higher investment limits in various areas. It can also invest to a greater extent in areas such as property and unregulated schemes and have the option to borrow on a permanent basis. Such additional powers can increase potential reward, but may also increase risk. For full details of the Fund's risks please see the 'Risk Factors' section of the Fund's Prospectus, which is available from WAY Fund Managers Limited, Cedar House, 3 Cedar Park, Cobham Road, Wimborne, Dorset, BH21 7SB or, during normal business hours on 01202 855856.
