Jupiter Asset Management Series PLC - Jupiter China Equity Fund (the 'Fund'), a sub-fund of Jupiter Asset Management Series PLC

U1 GBP Acc (ISIN - IE00BFWH3B58)

The Manager is Jupiter Asset Management (Europe) Limited (the "Manager")

Objectives and Investment Policy

Objective: The Fund will aim to achieve capital growth by investing 70% of its NAV directly in shares (i.e. equities) and similar investments issued by companies which either have a predominant part of their assets in, or revenue from the People's Republic of China, Hong Kong and/or Taiwan that are listed, traded or dealt on regulated markets in the People's Republic of China, Hong Kong, Taiwan, the US, Singapore, Korea, Thailand and Malaysia and member states of the OECD.

Policy: in seeking to achieve its investment objective, the fund aims to deliver a return, net of fees, greater than that of the MSCI Zhong Hua 10/40 Index with net dividends re-invested over rolling 3 year periods. The Fund may invest up to 20% in China A-Shares through the China-Hong Kong Stock Connect scheme.

The Fund may use derivatives (i.e. financial contracts whose value is linked to the expected price movements of an underlying investment), with the aim of generating returns and reducing the overall costs and/or risks of the Fund.

The Fund is actively managed. Portfolio construction is driven by combining mathematical models and a traditional research based approach (e.g. analysing a company's future prospects in the context of the economic environment) to identify attractively priced investment opportunities.

The Index is a broad representation of the Fund's investment universe. Although a large proportion of the Fund's investments may be components of the Index, the Fund has the ability to deviate significantly from the Index.

Portfolio transaction costs are paid out of the assets of the Fund in addition to the charges set out below, and may have an impact on the performance of the Fund.

Recommendation: the Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Treatment of income: as shares in this class are accumulation shares, income from investments will be reinvested into the Fund and reflected in the value of the shares.

Dealing: you can buy and sell shares on business days (excluding Saturdays, Sundays and public holidays) where retail banks are open in Dublin, London, China and Hong Kong.

Risk and Reward Profile

The calculated risk and reward category, as shown above, uses a method of calculation derived from EU rules. It is based on the rate at which the returns of the Fund have moved up and down in the past (i.e. volatility) and is not a guide to the future risk and reward category of the Fund. The category shown is not a target or guarantee and may shift over time. Even the lowest category 1 does not mean a risk-free investment. The seven-category scale is nonlinear, for example, 2 is not twice as risky as 1.

- Funds in category 6 have in the past shown relatively high volatility. With a fund of category 6, you have a relatively high risk of losing money but your chance for gains is also relatively high.
- Investment risk** - there is no guarantee that the Fund will achieve its objective. A capital loss of some or all of the amount invested may occur.
- Geographic concentration risk** - a fall in the China region may have a significant impact on the value of the Fund because it primarily invests in this market.
- Company shares (i.e. equities) risk** - the value of Company shares and similar investments may go down as well as up in response to the performance of individual companies and can be affected by daily stock market movements and general market conditions.
- Stock Connect risk** - Stock Connect is governed by regulations which are subject to change. Trading limitations and restrictions on foreign ownership may constrain the Fund's ability to pursue its investment strategy.
- Concentration risk (number of investments)** - the Fund may at times hold a smaller number of investments, and therefore a fall in the value of a single investment may have a greater impact on the Fund's value than if it held a larger number of investments.
- Currency risk** - the Fund is denominated in USD but holds assets denominated in other currencies. This share class is denominated in GBP. The value of your shares

- may rise and fall as a result of exchange rate movements.
- Emerging markets risk** - less developed countries may face more political, economic or structural challenges than developed countries.
- Liquidity Risk (less liquid securities)** - some investments may be hard to value or sell at a desired time and price. In extreme circumstances this may affect the Fund's ability to meet redemption requests upon demand.
- Derivative risk** - the Fund may use derivatives to generate returns as well as to reduce costs and/or the overall risk of the Fund. Using derivatives can involve a higher level of risk. A small movement in the price of an underlying investment may result in a disproportionately large movement in the price of the derivative investment. Derivatives also involve counterparty risk where the institutions acting as counterparty to derivatives may not meet their contractual obligations.
- For a more detailed explanation of risks, please refer to the "Risk Factors" section of the prospectus.

Charges

One-off charges taken before or after you invest

Entry charge	None
Exit charge	None

This is the maximum that might be taken out of your money before it is invested and before the proceeds of your investment are paid out. In some cases, you might pay less and you can find out the actual entry and exit charges from your financial adviser or distributor.

Charges taken from the Fund over a year

Ongoing charges	1.13%
-----------------	-------

Charges taken from the Fund under specific conditions

Performance fee	None
-----------------	------

- These charges are used to pay the costs of running the Fund, including the costs of marketing and distribution. Overall, they reduce the growth of your investment.
- The ongoing charges figure is based on the expenses of the Fund for the 12 month period ended December 2023. Where the Fund invests in other underlying funds, which may include closed-ended funds such as investment trusts, the ongoing charges figure will include the ongoing charges for those funds, and will therefore vary from year to year. The ongoing charges figure excludes portfolio transaction costs, except in the case of an entry/ exit charge paid by the Fund when buying or selling shares in another collective investment undertaking.
- It is not the intention for a switching charge (2.50%) to apply but the Fund reserves the right to impose a switching charge in the future.
- You can find out more details about the charges by looking at the *Fees and Expenses* section of the prospectus.
