

# Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

## CT UK Equity-Linked Gilt Fund

Share Class: 2 Acc, a Fund of Columbia Threadneedle (UK) ICVC X (ISIN GB00B4WHQ646). This Fund is managed by Columbia Threadneedle Fund Management Limited.

### Objectives and investment policy

The objective is to provide capital growth with some income over the long term (at least 5 years).

The Fund will invest at least 75% in over 15-year UK government securities (securities that pay either a fixed or variable level of income on a periodic basis and will generally repay a specified amount at a pre-determined date).

The remainder of the Fund will be invested in other transferrable securities, collective investment schemes (which may include schemes managed by Columbia Threadneedle), derivatives (an investment contract between the Fund and a counterparty the value of which is derived from one or more underlying assets), deposits, money market instruments, cash and/or near cash and warrants.

Derivatives may be used for hedging and efficient portfolio management. The Fund will also use Derivatives to obtain 100% exposure to UK shares by investing FTSE 100 exchange traded futures (contracts designed to mirror the returns of the FTSE 100 Index). The use of derivatives for investment purposes is expected to be significant.

As a result of the leverage this Fund is not considered suitable for retail investors, and you should take appropriate financial advice if you are a retail investor considering investing in this Fund.

Any income earned by this share class will be reinvested into the share class to help boost the value of a share. There is no minimum holding period for this Fund. However, it may not be appropriate for investors who plan to withdraw their money in under 5 years. You may buy or sell shares daily on demand (but not weekends or UK bank holidays or other days when the Fund is not open for dealing). Orders to buy or sell must be received by 10.00 am (UK time) to receive the price calculated at that day's valuation point. We are not required to hold monies arising from the purchase and sales of shares in our funds in a client money bank account and hold these monies in our own bank account, utilizing the FCA's permitted one-day window while carrying out a delivery versus payment transaction for the purpose of settling transactions in relation to units in the Fund. In the exceptional event that a transaction is not processed within this one-day window, any cash will be held in a client bank account. No interest will be paid to investors on cash held on a client bank account.

### Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

Historical data may not be a reliable indicator of the Fund's future risk and reward profile. The risk category shown is not guaranteed and may change over time. The lowest category does not mean 'risk free'. The value of your investment may fall as well as rise.

The category is based on the rate at which the value of the investments held by the Fund have moved up and down in the past.

The indicator does not adequately reflect the following risks of investing in particular assets, which may impact on future investment return:

**Derivative Risk:** derivative values rise and fall at a greater rate than equities and debt instruments. Loses can be greater than the initial investment.

**Leveraged Risk:** the use of derivative to increase the exposure of the Fund to the market through either long or short positions will make the value of the Fund's investments more volatile than those of an unleveraged fund.

**Fixed Interest Securities Risk:** changes in interest rates can affect the values of fixed interest holdings.

## Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

### One-off charges taken before or after you invest

Entry charge	0.00%
Exit charge	0.00%

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.

### Charges taken from the Fund over a year

Ongoing charges	1.89%
-----------------	-------

### Charges taken from the Fund under specific conditions

Performance fee	NONE
-----------------	------

The ongoing charges figure is based on the last year's expenses and may vary from year to year. It excludes the costs of buying or selling assets for the Fund (unless these assets are shares of another fund).

The ongoing charges figure is at 30/11/2023

It excludes:

- Performance fees
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the UCITS when buying or selling units in another collective investment undertaking.

For more information about charges, please see the section entitled Fees and Expenses in the Fund's prospectus, which is available at [www.columbiathreadneedle.co.uk](http://www.columbiathreadneedle.co.uk).

## Past performance

Source: FE fundinfo 2024

You should be aware that past performance is not a guide to future performance.

Fund launch date: 28/01/2010.

Share/unit class launch date: 02/07/2010.

Performance is calculated in GBP.

The chart shows how much the Fund increased or decreased in value as a percentage in each year, net of charges (excluding entry charge), and net of tax.

## Practical information

This document is issued by Columbia Threadneedle Fund Management Limited, a wholly owned subsidiary of Columbia Threadneedle Investments UK International Limited.
