Class A GBP Shares (ISIN IE00BMMV1N47)

Principal Asset Allocation Fund (the 'Fund'), a sub-fund of GemCap Investment Funds (Ireland) PLC (the 'Company')

The Fund is managed by Gemini Capital Management (Ireland) Limited which acts as manager to the Company

Objectives and Investment Policy

The investment objective of the Fund is to seek to achieve a positive return in all market conditions over a 3 year period.

The Fund is considered to be actively managed in reference to the Solactive United Kingdom Large Cap EX Investment Trust Index TR, the Solactive United Kingdom 100 Index TR and SONIA (Sterling Overnight Index Average) (the "Benchmarks") by virtue of the fact that the Fund uses the Benchmarks for performance comparison purposes and the Solactive United Kingdom 100 Index TR as the reference index for the purposes of calculating the global exposure of the Fund using the Relative VaR methodology. The Fund will use the relative VaR approach whereby the VaR of the Fund shall not exceed twice the VaR of the Solactive United Kingdom 100 Index TR. However, the Benchmarks are not used to define the portfolio composition of the Fund or as a performance target and the Fund may be wholly invested in securities which are not constituents of the Benchmarks.

The Fund expects to achieve the investment objective through the allocation of investments across four main asset classes. Equities, which are stocks or other forms of securities which represent an ownership interest, such as shares in a company. Foreign Exchange, the Fund may invest in securities denominated in a wide range of currencies. Fixed Income securities which are a form of investment for which the Fund shall receive real rates of return or periodic income such as bonds. Alternatives, being non-traditional assets that are not equities, fixed income securities or cash, such as financial indices or other forms of collective investment schemes.

The minimum exposure the Fund may have to equities is -40% of its Net Asset Value ('NAV') and the maximum is 70% of its NAV.

The minimum exposure to government bonds is -100% of its NAV and the maximum being 100% of its NAV.

The Fund may have a minimum exposure of 0% and a maximum exposure to

corporate bonds of 40% of its NAV.

The Fund may have a minimum exposure of 0% and a maximum exposure of 100% of its NAV to cash.

The minimum exposure the Fund may have to alternatives is 0% of its NAV and the maximum is 100% of its NAV.

The Fund may allocate up to 100% of its NAV in other eligible collective investment schemes.

In addition, the Fund may use certain financial derivative instruments such as swaps, being an agreement between the Fund and a counterparty to exchange one stream of cash flows against another, futures, options and forwards being agreements to buy and sell assets for a specified price at a specified point in time, participation notes or financial instruments that may be assumed to embed a financial derivative instrument such as credit linked notes and convertible or exchangeable bonds. Any type of asset that may be held by the Fund may be subject to Securities Financing Transactions and Total Return Swaps with the proportion of assets the subject of same expected to be between 35% and 100%.

The Fund may be managed to operate in normal circumstances within a gross range of 50%-150% long exposure and -50% and 150% net exposure. The Fund may be leveraged up to 200% of its NAV.

The Company may, at its discretion, declare dividends on any Class in the Fund at such intervals as shall be determined by the Company, and notified to Shareholders at that time. Dividends will be paid by electronic transfer within two months thereafter.

You may buy or sell your Shares on any day on which banks in the United Kingdom and Ireland are open for business.

lower potential risk/rewards

higher potential risk/rewards

The indicator above illustrates the position of this Fund on a standard risk/ reward category scale. This indicator is based historical data and may not be a reliable indication of the future risk profile of the Fund. The risk and reward category shown is not guaranteed to remain unchanged and may change over time. The lowest category does not mean investment is 'risk free'. This indicator is not a measure of the risk that you may lose the amount you have invested. The fund is categorised as a 4 because it is invested in portfolio of global equity and fixed income assets that are diversified and of high credit quality.

The following are risks materially relevant to the Fund which are not adequately captured by the indicator:

Counterparty Risk: The return payable under the swaps with the Approved Counterparty is subject to the credit risk of the Approved Counterparty which may have a negative effect on the Net Asset Value.

Market Risk: The Fund may invest in securities in markets, which experience specific risks due to increased volatility, liquidity, political and economic stability.

Derivatives Risk: Derivatives may not achieve their intended purpose. Their prices may move up or down significantly over relatively short periods of time which may result in losses greater than the amount paid. The Fund may become exposed to certain investment risks including leverage, market, mismatching of exposure and/or counterparty risk, liquidity, interest rate, credit and management risks and the risk of improper valuation. Any movement in the price of these investments can have a significant impact on the value of the Fund and the Fund could lose more than the amount invested.

Settlement and Credit Risk: Refers to the likelihood of the Fund losing money if an issuer is unable to meet its financial obligations or goes bankrupt.

Custodial Risk: There may be a risk of a loss where the assets of the Fund are held in custody that could result from insolvency, negligence or fraudulent action of the custodian or sub-custodian.

Liquidity Risk: At times, some shares or securities may trade infrequently which means it may be more difficult for the Fund to buy and sell them.

For a more detailed explanation of risks, please refer to the 'Risk Factors' section of the Prospectus and the 'Risk Warnings' section of the Supplement.
