Impax Environmental Markets (Ireland) Fund - Sterling "X" Accumulation Shares

ISIN: IE00BYQNSD98

A sub-fund of Impax Funds (Ireland) plc. Managed by Impax Asset Management Ireland Limited

OBJECTIVES AND INVESTMENT POLICY

Impax Environmental Markets (Ireland) Fund (the Fund) aims to generate long term capital growth.

The Fund invests globally in companies which provide, utilise, implement or advise upon technology-based systems, products or services in environmental markets. We define environmental markets as:

- Alternative Energy;
- Energy Management & Efficiency;
- Transport Solutions;
- Sustainable Food & Agriculture;
- Water Infrastructure & Technologies;
- Resource Efficiency & Waste Management;
- Digital Infrastructure; and
- Environmental Services & Resources.

The Fund has been classified as an Article 9 financial product for the purposes of Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector ("SFDR").

The Fund invests mainly in the shares of publicly quoted companies in developed markets.

The Fund may also invest in emerging markets, regions of the world that are typically still developing their economies.

The Fund may invest up to 10% in unquoted companies which are regarded as candidates for stock market flotation. Some of these investments may be issued with warrants. The Fund may invest up to 5% in these warrants.

The Investment Manager adds rigorous environment, social and corporate governance analysis for risk management and specific activity screens and limits for additional clarity and reassurance.

Any income the Fund generates for this share class will be reinvested to grow the value of your investment.

Investment in the Fund may be suitable for investors with a medium to long term investment horizon.

The Fund is actively managed and is not managed in reference to a benchmark.

You can buy and sell shares on any day excluding Saturday and Sunday on which banks are normally open for business in Dublin, Luxembourg and London. Exceptions are more fully described in the Prospectus.

For full investment objectives and policy details, please refer to the Prospectus under 'The Company: Investment Objectives - Policies and Restrictions', as well as the Fund Supplement.

RISK AND REWARD PROFILE

The risk and reward indicator is calculated on the basis of the share class volatility (the ups and downs in its value) over the prior 5 year period.

In addition to the above, the risk and reward indicator:

- is based on historical data and may not be a reliable indication for the future;
- The Fund is in category 6 because of the high range and frequency of price movements of the underlying investments the Fund invests in;
- the category is not guaranteed and may change over time; and
- the categorisation of the Fund may shift over time.

The lowest category does not mean that a share class is risk free. Your initial investment is not guaranteed.

In addition to the risk captured by the indicator, the overall Fund value may be considerably affected by the following:

- **Market risk:** The Fund's investments are subject to market fluctuations, so they can fall as well as rise in value.
- **Currency risk:** The Fund's underlying currency is Sterling. Fluctuation in exchange rates may reduce investment gains or

income and increase losses, both for the Fund's investments in currencies other than Sterling or for your own investments in Sterling Share Classes.

- **Investment risk:** Governmental liberalisation of basic services and increased environmental legislation may not occur as expected. The costs of technology in environmental markets may not be competitive. The Fund will invest in a number of relatively newly established companies and companies whose future is dependent on widespread adoption of their products and services.
- **Emerging market risk:** Emerging markets or less developed countries may face more political, economic or structural challenges than developed countries, putting your money at greater risk.
- **Liquidity risk:** Substantial selling by shareholders may necessitate the Investment Manager having to sell investments, incurring losses that would otherwise not have arisen.
- **Sustainability risk:** Sustainability risks are environmental, social and governance events or conditions whose occurrence could have an actual or potential material negative impact on the value of the Fund and all known types of risk of the Fund.

An extended discussion of the risks associated with an investment in the Fund is set out in the Prospectus under 'The Company - General Risk Factors', as well as the Fund Supplement.

CHARGES

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest:	
Entry charge	0.00%
Exit charge	0.00%
These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.	
Charges taken from the Fund over a year:	
Ongoing charges	0.91%
Charges taken from the Fund under specific conditions:	
Performance fee	NONE

The ongoing charges figure shown here is based on the Fund's expenses for the year ended 31 December 2022.

This figure may vary from year to year and does not include Fund transaction costs.

When you buy or redeem shares, an additional charge (anti-dilution levy – maximum 1%) may be payable to cover the costs incurred by the Fund in buying or redeeming investments for the Fund. This anti-dilution levy may only become payable during periods of continuous net subscriptions or net redemptions.

For more information about charges, please refer to the Company's Prospectus under 'Fees and Expenses', as well as the Fund Supplement.
