

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

WS Sequel Global Target Income Strategy Fund

Institutional Class (GB00BD378H16)
a Sub-Fund of WS Sequel Investment Funds ICVC II
Waystone Management (UK) Limited is the Authorised Corporate Director of the Fund

OBJECTIVES AND INVESTMENT POLICY

Investment Objective
The investment objective of the Fund is to provide a stable level of income of 4% per annum, with the potential of 1% capital growth over any 5-year rolling cycle to achieve a total return (a combination of income and capital growth, net of charges) of 5% per annum, over the return that could be expected from long term cash deposits, represented by the Bank of England 1 Year Fixed Rate Bond IUMWTFA.
Capital in the Fund is at risk and there is no guarantee that the investment objective will be achieved over this or any other time period.

Investment Policy
The Fund will seek to achieve its investment objective predominantly by investing directly and indirectly in UK and overseas equities, fixed interest securities, money market instruments, units or shares in collective investment schemes, cash and near cash. The Fund's allocation between these asset classes will be dependent on the Investment Manager's view on market conditions. However, over the longer term, it is expected that there will be a higher weighting in equities over any other asset class.
The Fund may be expected to have a relatively high degree of volatility.
The Fund may also invest, at the Investment Manager's discretion, in other transferable securities and/or close-ended collective investment schemes which may have exposure to alternatives such as commodities, loans, hedge funds, private equity and property or use alternative strategies.
The Fund may use derivatives for the purpose of Efficient Portfolio Management.

Subject to 60 days' notice to you, the Fund may use derivatives (which are instruments whose value is linked to the rise and fall in value of other assets) for investment purposes. This would be in addition to the current usage where the Fund may use derivatives for efficient portfolio management (i.e. to generate additional capital or income, to reduce risk and to protect the value of the Fund).
The Fund's investment powers in relation to derivatives and warrants means that for regulatory purposes it will be regarded as a high volatility fund. However, the Investment Manager's use of derivative techniques and investment in warrants will have the overall intention of reducing the volatility of returns, reflecting the investment policy for the Company generally.

Benchmark
The Target Benchmark of the Fund is Bank Of England 1 Year Fixed Rate Bond IUMWTFA + 5%.
The Target Benchmark has been chosen as this is a good representation of the return that could be expected from cash deposits.

Income
Any income the Fund generates in respect of your investment will be paid to you.

Fund Currency
The base currency of the Fund is GBP.

Subscription and Redemption
You can buy or sell shares in the Fund at 12 noon on any day that is a business day in the UK if you tell us before 12 noon that you want to do so.

RISK AND REWARD PROFILE

Risk Disclaimer
The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table above shows the Fund's ranking on the Risk and Reward Indicator.
The lowest risk category does not mean that your investment will be risk free.
The value of investments is subject to market fluctuations. Your original investment is not guaranteed and you may not get back the full amount invested in the Fund.

Why is the fund in the specific category?
This Fund is ranked 5. This is due to historical price movement of such investments.

The indicator does not take into account the following risks of investing in this Fund:

- The value of investments in equities and bonds may be affected adversely by political, economic or company news as well as changes in company earnings and interest rates.
- The Fund invests in fixed interest securities, there is a risk that issuers of the Bonds may not be able to repay the money they have borrowed or the interest that is due.
- Where the Fund makes investments in assets that are not denominated in GBP, changes in exchange rates will affect the value of your investment. The Fund may use derivatives to reduce risk of exchange rate movement and protect the value of the fund, although this may not be achieved.
- In difficult market conditions and for certain assets there may be a reduction in buying and selling activity making it difficult for the Fund to buy or sell, which may mean the Fund sells at lower prices and misses investment opportunities, having the effect of reducing Fund returns.
- The insolvency of any institutions which acts as a counterparty to derivatives and other instruments or supply services to the Fund such as safe keeping, may expose the Fund to financial loss.
- There is a risk of a loss to the Fund due to system failures, inadequate controls and human error.

Further details on risk factors that apply to this Fund are set out in the Risk Factors section of the prospectus.

CHARGES

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after the investment

Entry charge	0.00%
Exit charge	0.00%

Charges debited to the Fund over a year

Ongoing charge	2.34%
----------------	-------

Charges debited to the Fund under certain specific conditions

Performance fee: Not applicable

The entry and exit charges are maximum figures. In certain cases you may pay less - you can find this out from your financial advisor.

The ongoing charges figure is calculated as at 31 August 2022. This figure may vary from year to year.

It excludes the costs of buying or selling assets for the Fund (unless these assets are shares of another fund).

Where the Company buys or sells underlying investments in response to a request for the issue or redemption of shares, it will generally incur a cost. This effect is referred to as "dilution". You may be charged a "dilution levy" to be added to the issue price or deducted from the redemption price of shares as appropriate. The dilution levy will normally be up to 0.5% if a sale or purchase has a gross value equal to or exceeding 5% of the total Fund value.

For more information about charges, please see the Fees and Expenses section of the Fund's prospectus, which is available at www.waystone.com.

PAST PERFORMANCE

Fund launch date: 18 September 2006.

Share/unit class launch date: 19 September 2016

Past performance is calculated in GBP.

Past performance is not a reliable indication of future performance.

All charges and fees, except any entry fee, have been included in the performance figures.

PRACTICAL INFORMATION

Depository

The Depository of the Fund is CACEIS Bank, UK Branch.
