BNY MELLON
INVESTMENT MANAGEMENT

BNY Mellon Multi-Asset Global Balanced Fund

INSTITUTIONAL SHARES W (INCOME) (ISIN: GB00BD8YW196)

a sub-fund of BNY Mellon Investment Funds. This Fund is managed by BNY Mellon Fund Managers Limited

Objectives and Investment Policy

OBJECTIVE

To achieve a balance between income and capital growth over the long term (5 years or more).

POLICY

The Fund will:

- invest anywhere in the world;
- invest at least 75% of the portfolio across a range of global asset classes including, without limitation, equities (company shares), fixed income (bonds), infrastructure, renewable energy, property, commodities and near cash; and
- gain exposure to alternative asset classes, such as infrastructure, renewable energy, property and commodities, through stock exchange listed investments, other transferable securities and/or collective investment schemes.

The Fund may:

- invest in emerging markets;
- invest in money market instruments, deposits, cash and near cash;
- invest in bonds rated below investment grade (BBB-) by Standard & Poor's (or equivalent recognised rating agency);
- invest in Contingent Convertible Securities (CoCo's);
- invest in derivatives (financial instruments whose value is derived from other assets) to help achieve the Fund's investment objective. The Fund will also use derivatives with the aim of risk or cost reduction or to generate additional capital or income; and

– invest up to 10% in other collective investment schemes.

Benchmark: The Fund will measure its performance against a composite index, comprising 37.5% FTSE All-Share TR Index, 37.5% FTSE World ex UK TR Index, 20% FTSE Actuaries UK Conventional Gilts All Stocks TR Index and 5% 7-Day Compounded SONIA, as a comparator benchmark (the "Benchmark"). The Fund will use the Benchmark as an appropriate comparator because it includes a broad representation of the asset classes, sectors and geographical areas in which the Fund predominantly invests.

The Fund is actively managed, which means the Investment Manager has absolute discretion to invest outside the Benchmark subject to the investment objective and policies disclosed in the Prospectus. While the Fund's holdings may include constituents of the Benchmark, the selection of investments and their weightings in the portfolio are not influenced by the Benchmark. The investment strategy does not restrict the extent to which the Investment Manager may deviate from the Benchmark.

OTHER INFORMATION

Treatment of income: income generated will be paid to shareholders semi-annually on or before 30 September and 28 February.

Dealing: you can buy and sell your shares in the Fund between 9:00 and 17:00 (UK time) on each business day in England and Wales. Instructions received before 12:00 will receive the price quoted on that day. The minimum initial investment for this share class is GBP 500,000.

Risk and Reward Profile

Lower risk
Potentially lower reward

Higher risk
Potentially higher reward

1 2 3 4 **5** 6 7

We have calculated the risk and reward indicator, as shown above. It is based on the rate at which the value of the Fund has moved up and down in the past (i.e. volatility). It is not a guide to the future risk and reward rating of the Fund. The rating shown is not a target or guarantee and may shift over time. Even the lowest rating of 1 does not mean a risk-free investment.

This Fund is rated 5 because its historical value has shown moderately high volatility. With a Fund rating of 5, you have a moderately high risk of losing money but your chance for gains is also moderately high.

THE FOLLOWING RISKS MAY NOT BE FULLY CAPTURED BY THE RISK AND REWARD INDICATOR:

Shanghai-Hong Kong Stock Connect and/or the Shenzhen-Hong Kong Stock Connect ("Stock Connect") risk: The Fund may invest in China A shares through Stock Connect programmes. These may be subject to regulatory changes and quota limitations. An operational constraint such as a suspension in trading could negatively affect the Fund's ability to achieve its investment objective.

Objective/Performance Risk: There is no guarantee that the Fund will achieve its objectives.

Currency Risk: This Fund invests in international markets which means it is exposed to changes in currency rates which could affect the value of the Fund.

Derivatives Risk: Derivatives are highly sensitive to changes in the value of the asset from which their value is derived. A small movement in the value of the underlying asset can cause a large movement in the value of the derivative. This can increase the sizes of losses and gains, causing the value of your investment to fluctuate. When using derivatives, the Fund can lose significantly more than the amount it has invested in derivatives.

Changes in Interest Rates & Inflation Risk: Investments in bonds/ money market securities are affected by interest rates and inflation trends which may negatively affect the value of the Fund.

Credit Ratings and Unrated Securities Risk: Bonds with a low credit rating or unrated bonds have a greater risk of default. These investments may negatively affect the value of the Fund.

Credit Risk: The issuer of a security held by the Fund may not pay income or repay capital to the Fund when due.

Emerging Markets Risk: Emerging Markets have additional risks due to less-developed market practices.

China Interbank Bond Market and Bond Connect risk: The Fund may invest in China interbank bond market through connection between the related Mainland and Hong Kong financial infrastructure institutions. These may be subject to regulatory changes, settlement risk and quota limitations. An operational constraint such as a suspension in trading could negatively affect the Fund's ability to achieve its investment objective.

CoCo's Risk: Contingent Convertible Securities (CoCo's) convert from debt to equity when the issuer's capital drops below a pre-defined level. This may result in the security converting into equities at a discounted share price, the value of the security being written down, temporarily or permanently, and/or coupon payments ceasing or being deferred.

Counterparty Risk: The insolvency of any institutions providing services such as custody of assets or acting as a counterparty to derivatives or other contractual arrangements, may expose the Fund to financial loss.

A complete description of risk factors is set out in the Prospectus in the section entitled "Risk Factors".

Charges

The charges cover the costs of running the Fund, including the costs of marketing and selling. These charges reduce the potential growth of your investment.

ONE-OFF CHARGES TAKEN BEFORE OR AFTER YOU INVEST
