The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Aegon UK Sustainable Opportunities Fund

a sub-fund of Aegon Asset Management UK ICVC

Sterling Class B - Accumulation shares (ISIN: GB00B1N9DS91)

This fund is managed by Aegon Asset Management UK plc (the authorised corporate director ("ACD")).

Objectives and investment policy

Objective: to provide a combination of income and capital growth over any 7 year period.

Policy: The Fund will be invested in a concentrated portfolio (typically 35-45 stocks) with at least 80% of the Fund consisting of equities of companies which are domiciled, incorporated or have significant operations in/exposure to the UK but which may also be quoted on a regulated market outside of the UK and which meet the Fund's predefined sustainability criteria.

The Fund is actively managed and can invest in companies of any market capitalisation (small, medium or large) and in any industry sector although will generally have a bias towards small to medium companies. At any one time, the scope of investment may be themed by industry, size or style to take advantage of opportunities identified by the ACD.

The ACD seeks to identify companies which, in the ACD's opinion, have undiscovered growth. This is supplemented by a selection of less mature smaller companies with long term growth potential and includes the flexibility to implement thematic views.

All of the Fund's equity investments are subject to the ACD's sustainability criteria relevant to this asset class. The ACD will, firstly, apply an exclusionary screen to exclude investments which the ACD considers have a negative impact on society and/or the environment.

The ACD then, applying a detailed sustainability analysis, focusses on the equities of companies which are aligned with, or expected to contribute to the key sustainability characteristics considered as part of the ACD's sustainability analysis.

The ACD will use a combination of external third party research and internal analysis in the application of its sustainability criteria.

The Fund can also invest up to 20% of its Net Asset Value in equities of non-UK companies (which, for the avoidance of doubt, require to meet the Fund's pre-defined sustainability criteria).

To the extent that the Fund is not fully invested in the main asset class listed above, the Fund may also invest in warrants, collective investment schemes (up to 10% of Net Asset Value and which may include schemes managed by the ACD or its affiliates), deposits and cash and near cash. It is intended that investment in any other collective investment schemes will be predominately in approved money market instruments.

Derivatives can be used for efficient portfolio management (including hedging to reduce currency risk).

Non-Sterling exposure will not typically be hedged back to Sterling.

Other information

You can buy, sell or exchange the Fund's shares on any business day (see 'Dealing Day' in the Prospectus Definitions for more information).

Income the Fund receives will be reinvested and automatically reflected in the value of your shares.

It is expected that the Fund will be held as part of a diversified portfolio which may include other assets such as bonds, equities, property and cash.

Risk and reward profile

1	2	3	4	5	6	7
Lower risk / potentially lower rewards					Higher risk / potentially higher rewards	

The risk/reward profile shows the risk of investing in the Fund, based on the rate at which its value has changed in the past. This Fund has the above risk/reward rating because share prices can change quickly and unpredictably, for example due to political or economic events.

The Fund's category is not guaranteed and may change over time. It is calculated using historical data, which may not be a reliable indication for the future. Category 1 does not mean 'risk free'.

The following risks which are not, or are not fully, reflected in the risk/reward profile are also relevant to the Fund:

Liquidity: The Fund's value may fall if shares, especially those of smaller companies and companies in emerging markets, become more difficult to trade or value due to market conditions or lack of supply and demand.

Concentration Risk: Holding a limited number of underlying investments means a change in the value of any one investment has more impact on the Fund's value. This increases potential gain but also potential loss.

ESG Risk: Applying ESG factors to the investment analysis may impact the investment decision for securities of certain issuers and therefore the Fund may forgo some market opportunities available to funds that do not use ESG factors. Securities of issuers with ESG practices may shift into and out of favor depending on market and economic conditions, and the Fund's performance may at times be better or worse than the performance of funds that do not use ESG factors.

Full details of risks are disclosed in the section 'Risk Factors' in the Prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	0.00%
Exit charge	0.00%

This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.

Charges taken from the fund over a year

Ongoing charges	0.78%
-----------------	-------

Charges taken from the fund under certain specific conditions

Performance fee	None
-----------------	------

The entry and exit charges shown are the maximum figures, and in some cases you may pay less. You can find out specific charges which apply to your investment by contacting your financial adviser, distributor, or by contacting us using the details given in the Practical Information section.

The ongoing charge is based on expenses for the year to 31 December 2023. This figure may vary from year to year. It excludes any portfolio transaction costs (except in the case of an entry/exit charge paid by the Fund when buying and selling shares in another fund).

Switches or Conversion: 1st 4 in any calendar year are free, and subject to a charge of 1.5% on each transaction thereafter.

More detailed information on charges can be found in the 'Fees and Expenses' section of the Prospectus.

Past performance

Past performance is not a guide to future performance.

Fund launch date: 01 March 2007

Share class launch date: 01 March 2007

Performance is calculated in GBP.

The past performance calculation does not take into account the entry and exit charges but does take into account the ongoing charge, as shown in the 'Charges' section.

Note: On 1st June 2022 the name of the Fund changed from Aegon UK Opportunities Fund to Aegon UK Sustainable Opportunities Fund. The investment policy was also updated to reflect the sustainable strategy overlay.
