Key Investor Information

Rathbones
Look forward

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Rathbone Ethical Bond Fund (S-Class Income)

A sub-fund of Rathbone Unit Trusts
Fund Manager: Rathbone Unit Trust Management Limited
S-Class Income ISIN GB00BDD0RM82

Objectives and Investment Policy

We aim to deliver a greater total return than the Investment Association (IA) Sterling Corporate Bond sector, after fees, over any rolling five-year period. Total return means the return we receive from the value of our investments increasing (capital growth) plus the income we receive from our investments (interest payments). We use the IA Sterling Corporate Bond sector as a target for our fund's return because we aim to achieve a better return than the average of funds that are similar to ours.

We will invest at least 80% of our fund in corporate bonds with an investment-grade rating (AAA to BBB-), based on the average of the three largest rating agencies (Standard & Poor's, Moody's and Fitch). We can invest up to 20% of our fund in corporate bonds with a credit rating below BBB- or with no rating at all. Up to 10% of the fund can be invested directly in contingent convertible bonds. These specialist bonds, typically issued by banks and insurers, are forcibly replaced with shares if the issuer experiences heavy losses. At least 80% of the portfolio will be invested in sterling bonds or in overseas assets whosevalue we have hedged back to sterling. Hedging means we buy a financial instrument to swap the value of these assets into sterling to protect our investment from changes in the price of foreign currencies.

We actively manage our fund, which means we can choose what we invest in as long as it's in line with the investment objective and policy. Because of this, our fund's performance can diverge significantly from its benchmarks over shorter periods of time and therefore isn't appropriate for investors who plan to withdraw their money within five years.

Our fund's ethical and sustainability criteria are applied by Rathbone Greenbank Investments, an ethical research division of our company, which cannot be influenced by our fund managers. Companies are assessed against positive and negative social and environmental criteria.

For us to invest in a company, it must satisfy at least one of the following: strong employment practices, sustainable environmental practices or community engagement and commitment to human rights.

We do not invest in companies engaged in the following:

— Alcohol manufacturing
— Carbon-intensive industries
— Human rights abuses
— Alcohol retail
— Poor employment practices
— Nuclear power
— Animal welfare violations
— Polluting the environment
— Pornography
— Armaments
— Gambling
— Tobacco manufacturing

Our fund is designed for investors with a basic knowledge of bonds who seek income and growth. You should intend to invest for longer than five years, understand the risks of our fund and have the ability to bear a capital loss.

You can buy and sell units on each business day of the fund between 9am and 5pm.

The fund offers accumulation units (units in which any income payable by the fund is reinvested) and income units (units in which any income received in the fund will be paid to the unitholder).

Risk and reward profile

Typically lower rewards
Lower risk

Typically higher rewards
Higher risk

These numbers rate how the Fund may perform and the risk of losing some or all of your investment. In general the potential for higher returns also implies a higher level of risk. However, the lowest category (1) does not mean a risk free investment.

The risk category is calculated using historical data and may not be a reliable indicator of the Fund's future risk profile. The risk category shown is not guaranteed and may change over time.

This indicator is a measure of the fund's past volatility (the extent and rapidity of up-and-down movements of the value of an investment). It may not be a reliable indication of the fund's future risk. The risk category shown is not a target or a guarantee and may change over time.

The risk indicator for this fund reflects the following:

- The emphasis on income helps the manager to maintain a moderate risk profile for the fund.

The value of investments in the fund and the income from them may go down as well as up and you may not get back your original investment when you sell your units.

During unusual market conditions, the risks normally experienced by the fund may increase significantly, and in addition, the fund may be subject to the following risks:

Liquidity risk: Some assets held in this fund can be hard to sell, especially in times of market stress. This could mean that if we had a lot of money redeemed from our fund in a short period of time, we might not be able to meet our obligations. In this circumstance, we are able to suspend our fund until we could find a buyer for these assets. This would result in you being unable to access your money.

Counterparty risk: A company that we deal with may renege on its obligations, costing you money.

Interest rate risk: Most bonds pay us a fixed amount over an agreed period of time. If interest rates rise these bonds become less valuable and we may be locked into an unfavourable investment. If interest rates fall these bonds become more valuable.

Credit risk: Bonds that we own can become more or less creditworthy and will fluctuate in value resulting in gains or losses. Bonds that we own may fail to meet their legal obligations, such as missing an interest payment. This is known as a 'default' and will result in a loss.

Operational risk: We rely on complex systems to ensure that trades are completed, our fund's assets are accounted for and that you can buy or sell our fund. If our systems fail, you could be inconvenienced or lose money.

Derivatives risk: Sometimes we use financial contracts to reduce risk. There is a chance that these derivatives won't work in the way we intended, which could result in unexpected gains or losses.

Management risk: People make the investment decisions for our fund. If they make unfavourable decisions, you could lose money.

Sustainability Risk: Returns could deviate from the market or funds that don't promote environmental or social characteristics, or that don't avoid investments/sectors e.g., oil, tobacco.

Charges for this Fund

The fund manager receives an annual fee, which is included in the ongoing charges shown below. You may be eligible for lower entry charges than the maximum shown; ask your financial adviser. Ongoing charges are the same for all investors in the same class. The charges shown below are based on actual fees and expenses as at the Fund's current year-end or semi-annual period.

Entry Charge	none
Exit Charge	none
This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.	
Ongoing Charges	0.52%
Charges taken from the Sub-Fund under certain specific conditions	
Performance Fee	none

The Fund does not charge entry or exit charges.

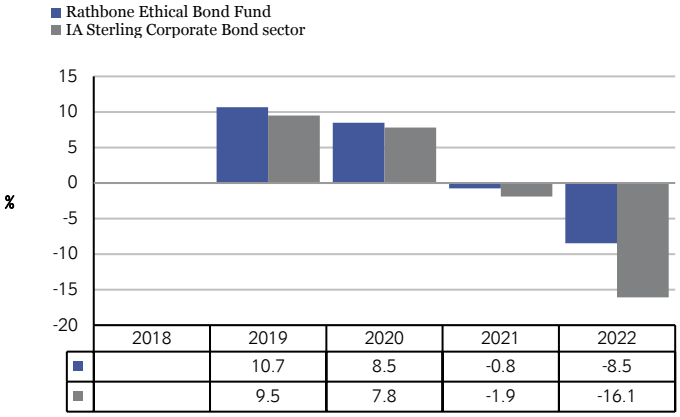

For more information about charges, please see the "Charges" section of the fund's Prospectus, available by calling the Information Line or emailing rutm@rathbones.com.

Past Performance

Basis of performance: Price performance based upon bid to bid prior to 21 January 2019 and single price (mid) thereafter.

Past performance is reported on a full calendar year basis.

Fund inception: 14 May 2002. S-class units were launched on 5 April 2018.

	2018	2019	2020	2021	2022
■		10.7	8.5	-0.8	-8.5
■		9.5	7.8	-1.9	-16.1

Past performance should not be seen as an indication of future performance.
