

# Non-UCITS retail scheme Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

## Jupiter Merlin Real Return I-Class

I-Class Accumulation Units, ISIN: GB00BZ1M2690

The Manager is Jupiter Unit Trust Managers Limited.

### Objectives and investment policy

#### Objective

The Portfolio objective is to achieve a return, net of fees, that is at least 3% per annum higher than the Consumer Price Index over 3-year rolling periods.

Capital invested in the Fund is at risk and there is no guarantee that the investment objective will be achieved over 3-year rolling periods or in respect of any other time period.

The Consumer Price Index is an inflationary indicator published monthly by the UK Office for National Statistics that measures the change in the cost of a fixed basket of products and services, including housing, electricity, food, and transportation.

#### Policy

At least 70% of the Fund is invested in collective investment schemes (including funds managed by Jupiter and its associates).

Up to 30% of the Fund may be invested in other assets, including shares of companies, cash and near cash.

#### Strategy

The team believes that with deep and thorough research, they are able to identify active fund managers with the ability to generate strong risk-adjusted returns. The Fund will tend to invest in a focused portfolio of funds where the manager has the highest conviction.

The majority of the fund will be allocated to funds which invests in alternative assets.

#### Benchmarks

Target benchmark – CPI + 3% p.a. over rolling three years

The Consumer Price Index is an inflationary indicator published monthly by the UK Office for National Statistics that measures the change in the cost of a fixed basket of products and services, including housing, electricity, food, and transportation and is

a good relative measure to assess real capital appreciation.

#### Active Management

The Fund is actively managed. This means the fund manager is taking investment decisions with the intention of achieving the Fund's investment objective; this may include decisions regarding asset selection, regional allocation, sector views and overall level of exposure to the market. The fund manager is not in any way constrained by a benchmark in their portfolio positioning.

Any income arising in relation to this unit class will be accumulated (i.e. automatically reinvested and reflected in the price of the shares).

Investors are able to buy and sell units during any business day between 9am and 5.30pm. If you tell us to buy or sell units before 12pm on any business day we will make the transaction on the same day. If you tell us to buy or sell units after 12pm we will make the transaction on the following business day.

#### Recommendation

This fund may not be suitable for investors who plan to withdraw their capital within 3 years.

### Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

- For a more detailed explanation of risk factors, please refer to the "Risk Factors" section of the Scheme Particulars.

- The lowest category does not mean 'no risk'.
- The Fund is in this category due to the nature of its investments and previous levels of volatility (how much the value of the Fund rises and falls).
- Currency (FX) Risk** - The Fund can be exposed to different currencies and movements in foreign exchange rates can cause the value of investments to fall as well as rise.
- Interest Rate Risk** - The Fund can invest in assets whose value is sensitive to changes in interest rates (for example bonds) meaning that the value of these investments may fluctuate significantly with movement in interest rates.e.g. the value of a bond tends to decrease when interest rates rise.
- Pricing Risk** - Price movements in financial assets mean the value of assets can fall as well as rise, with this risk typically amplified in more volatile market conditions.
- Credit Risk** - The issuer of a bond or a similar investment within the Fund may not pay income or repay capital to the Fund when due.
- Derivative risk** - the Fund may use derivatives to reduce costs and/or the overall risk of the Fund (this is also known as Efficient Portfolio Management or "EPM"). Derivatives involve a level of risk, however, for EPM they should not increase the overall riskiness of the Fund.
- Counterparty Risk** - the risk of losses due to the default of a counterparty e.g. on a derivatives contract or a custodian that is safeguarding the Fund's assets.

## Charges

### One-off charges taken before or after you invest

Entry charge	0.00%
Exit charge	0.00%

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment.

### Charges taken from the Fund over a year

Ongoing charges	1.58%
-----------------	-------

### Charges taken from the Fund under specific conditions

Performance fee	NONE
-----------------	------

- The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.
- The ongoing charges figure is based on the fixed annual charge as detailed in the Scheme Particulars. Where the Fund invests in other underlying funds, which may include closed-ended funds such as investment trusts, the ongoing charges figure will include the ongoing charges for those funds, and will therefore vary from year to year. The ongoing charges figure excludes portfolio transaction costs, except in the case of an entry/ exit charge paid by the Fund when buying or selling shares in another collective investment undertaking.
- Further information about charges is available in sections 17 and 18 of the Scheme Particulars which are available from Jupiter on request.

## Past performance

- Past performance is not a guide to future performance.
- Fund launch date: 09/07/2018
- Share/unit class launch date: 09/07/2018
- Performance is calculated in GBP.
- The past performance shown in the chart includes all charges except any entry and exit charges.
- Target Benchmark - CPI+3% p.a.

## Practical information

- The Trustee and Depositary of the Fund is Northern Trust Investor Services Limited ("NTISL"). NTISL has delegated custody services to The Northern Trust Company, London Branch.
