MGTS St Johns Property Authorised Trust Inc (GB00BJFDXN07)

The Sub-fund is managed by Margetts Fund Management Limited.

Objective and Investment Policy

Investment Objective

The objective of the Trust is to provide income with potential for capital growth over any 8 year period through investing solely in MGTS St. Johns High Income Property Fund, a Sub-fund of MGTS St. Johns Property ICVC (the “Master”).

The purpose of the Trust is to act as a feeder fund for the Master at all times.

How will the objective be achieved?

The Trust will invest solely in the Master, the investment policy of which is set out below. The investment policy of the Trust means that it may be appropriate for the Trust to hold cash or near cash where the Manager reasonably regards it to be necessary to enable the pursuit of the Trust’s objective, redemption of Units, efficient management of the Trust in accordance with its objective, or for purposes ancillary to the above.

Over any 5 year period the Sub-fund will on average hold a minimum of 70% directly in UK commercial immovable property.

UK commercial property may include freehold and leasehold immovable property including (but not limited to), light industrial, heavy industrial, chemical industry, manufacturing, office, and service sector.

In accordance with PAIF regulation at least 60% of the total value of the assets of the Sub-fund must consist of assets involved in property investment business during any accounting period.

The Sub-fund may also invest in:-

- Up to 15% of the portfolio value in units and/or shares in collective investment schemes (which may include schemes operated by the manager, associates or controllers of the manager);
- transferable securities such as real estate investment trusts (REITs), shares, investment trusts and bonds;
- cash and near cash

The Sub-fund will be fully invested save for a cash amount to enable ready settlement of liabilities (including redemption of units) and efficient management of the Sub-fund both generally and in relation to its strategic objective. This amount will vary depending upon prevailing circumstances and although it would normally not exceed 20% of the total value of the Sub-fund, there may be times when the Manager considers a period of instability exists which presents unusual risks or the Sub-fund is required to increase the level of cash to meet redemptions or make an investment. In such cases or during such periods and, if considered prudent, the amount of cash or near cash instruments held would be increased. Unless market conditions were deemed unusually risky, the increased amount and period would not be expected to exceed 30% and six months respectively.

Management Style

The Sub-fund is actively managed, meaning that the manager selects investments, rather than tracking a stock exchange or index.

Derivative Use

The Master may only use derivatives for the purpose of efficient portfolio management (for example, overseas currency EPM exposure).

General

Shares in the Sub-fund can be bought and sold daily (every Business Day of the Sub-fund). If you invest in income shares, income from investments in the Sub-fund will be paid out to you. If you invest in accumulation shares, income will be retained in the value of your shares.

Recommendation: this Sub-fund may not be appropriate for investors who plan to withdraw their money within 8 years.

Risk and Reward Profile

The following risk factors are relevant to the overall risk profile of the Sub-fund. A full description of risk warnings is provided in the prospectus, which is available on our website, or by requesting a copy.

Investments in property carries specific risks due to the inherently illiquid nature of property investment. There may be times when it is harder to sell, or the valuation of properties becomes uncertain,

meaning that redemption requests or receiving proceeds from redemptions could be delayed. Investors should be aware of property risks, defined in the prospectus, and the ACD’s rights for “Deferred Redemption” and “Suspension of Dealings” which might affect the right to redeem.

The objective, policy and strategy set out above should align with the objectives of the investors and their minimum timeframe for investment.

Charges

The charges you pay are used to pay the costs of running the Sub-fund, including the costs of marketing and distribution. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest
