

Systematic China A-Share Opportunities Fund

A sub-fund of BlackRock Global Funds

Class D2 GBP

ISIN: LU2028885262

Management Company: BlackRock (Luxembourg) S.A.

Objectives and Investment Policy

- ▶ The Fund aims to maximise the return on your investment through a combination of capital growth and income on the Fund's assets and invest in a manner consistent with the principles of environmental, social and governance (ESG) investing.
- ▶ The Fund invests at least 70% of its total assets in the equity securities (e.g. shares) of companies domiciled in, or the main business of which is in, the People's Republic of China.
- ▶ The Fund will invest only in onshore Chinese equity markets (known as "A Shares") and so Hong Kong, the Macau Special Administrative Regions and Taiwan are excluded. The Fund may invest in the Chinese equity markets through the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect.
- ▶ In order to achieve its investment objective and policy, the Fund will invest in a variety of investment strategies and instruments. In particular, the Fund will use quantitative (i.e. mathematical or statistical) models in order to achieve a systematic (i.e. rule based) approach to stock selection. This means that stocks will be selected based on their expected contribution to portfolio returns when risk and transaction cost forecasts are taken into account.
- ▶ The Fund is classified as an Article 8 Fund in line with the EU Sustainable Finance Disclosure Regulation and the Investment Adviser (IA) will consider certain ESG characteristics (<https://www.blackrock.com/corporate/literature/publication/blackrock-baseline-screens-in-europe-middle-east-and-africa.pdf>) when selecting the securities to be held directly by the Fund and may use data provided by external ESG research providers and proprietary models.
- ▶ The IA may use financial derivative instruments (FDIs) (i.e. investments the prices of which are based on one or more underlying assets) for investment purposes in order to achieve the investment objective of the Fund, and/or to reduce risk within the Fund's portfolio, reduce investment costs and generate additional income. The Fund may, via FDIs, generate varying amounts of market leverage (i.e. where the Fund gains market exposure in excess of the value of its assets).
- ▶ The Fund is actively managed, and the IA has discretion to select the Fund's investments. In doing so, the IA will refer to the MSCI China A Onshore Index (the "Index") when constructing the Fund's portfolio, and also for performance comparison and risk management purposes as further described in the prospectus. The IA is not bound by the components or weighting of the Index and may also use its discretion to invest in securities not included in the Index. However, the geographical scope of the investment objective and policy may have the effect of limiting the extent to which the portfolio holdings will deviate from the Index.
- ▶ Recommendation: This Fund may not be appropriate for short-term investment.
- ▶ Your shares will be non-distributing (i.e. dividend income will be included in their value).
- ▶ The Fund's base currency is US Dollar. Shares for this class are bought and sold in Sterling. The performance of your shares may be affected by this currency difference.
- ▶ You can buy and sell your shares daily. The minimum initial investment for this share class is US\$100,000 or other currency equivalent.

For more information on the Fund, share/unit classes, risks and charges, please see the Fund's prospectus, available on the product pages at www.blackrock.com

Risk and Reward Profile

- ▶ The risk indicator was calculated incorporating simulated historical data and may not be a reliable indication of the future risk profile of the Fund.
- ▶ The risk category shown is not guaranteed and may change over time.
- ▶ The lowest category does not mean risk free.
- ▶ The Fund is rated six due to the nature of its investments which include the risks listed below. These factors may impact the value of the Fund's investments or expose the Fund to losses.
 - Emerging markets are generally more sensitive to economic and political conditions than developed markets. Other factors include greater 'Liquidity Risk', restrictions on investment or transfer of assets, failed/delayed delivery of securities or payments to the Fund and sustainability-related risks.
 - Investment risk is concentrated in specific sectors, countries, currencies or companies. This means the Fund is more sensitive to any localised economic, market, political, sustainability-related or regulatory events.
- The value of equities and equity-related securities can be affected by daily stock market movements. Other influential factors include political, economic news, company earnings and significant corporate events.
- The Fund may invest in China A-Shares via the Shanghai-Hong Kong Stock Connect which may expose the Fund to additional risks including quota limitations, uncertainty around the legal and regulatory framework, restrictions on selling in certain circumstances and clearing, settlement and custody risk which may expose the Fund to financial loss.
- The Fund seeks to exclude companies engaging in certain activities inconsistent with ESG criteria. Investors should therefore make a personal ethical assessment of the Fund's ESG screening prior to investing in the Fund. Such ESG screening may adversely affect the value of the Fund's investments compared to a fund without such screening.
- The Fund uses quantitative models in order to make investment decisions. As market dynamics shift over time, a quantitative model may become less efficient or may even present deficiencies under certain market conditions.
- ▶ Particular risks not adequately captured by the risk indicator include:
 - Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss.
 - Liquidity Risk: Lower liquidity means there are insufficient buyers or sellers to allow the Fund to sell or buy investments readily.

Charges

The charges are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The entry and exit charges shown are maximum figures. In some cases you might pay less. Please refer to your financial advisor or the distributor for the actual entry and exit charges.

*Subject to a charge of up to 2% paid into the Fund where the Manager suspects excessive trading by an investor.

The ongoing charges figure is based on expenses for the twelve month period ending 31 December 2023. This figure may vary from year to year. It excludes portfolio trade-related costs, except costs paid to the custodian and any entry/exit charge paid to an underlying collective investment scheme (if any).

** To the extent the Fund undertakes securities lending to reduce costs, the Fund will receive 62.5% of the associated revenue generated and the remaining 37.5% will be received by BlackRock as the securities lending agent. As securities lending revenue sharing does not increase the costs of running the Fund, this has been excluded from the ongoing charges.

One-off charges taken before or after you invest	
Entry Charge	5.00%
Exit Charge	None*
This is the maximum that might be taken out of your money before it is invested or before proceeds of your investments are paid out.	
Charges taken from the Fund over each year	
Ongoing Charges	1.11%**
Charges taken from the Fund under certain conditions	
Performance Fee	None

Past Performance

Past performance is not a guide to future performance.

The chart shows the Fund's annual performance in GBP for each full calendar year over the period displayed in the chart. It is expressed as a percentage change of the Fund's net asset value at each year-end. The Fund was launched in 2017. The share class was launched in 2019.

Performance is shown after deduction of ongoing charges. Any entry/exit charges are excluded from the calculation.

†¹ MSCI China A Onshore Index (GBP)

It is not intended that the performance of the Fund will track the index.
