

7iM

7IM PATHBUILDER 3 FUND, CLASS C (Income)

Objectives and investment policy

The fund does not use a comparator, constraining or target benchmark to assess performance. Performance may be assessed by considering the extent to which the fund has met its investment objective. Once the fund has one calendar year's performance, the fund's returns will be published on the 7IM website.

- The lowest number on the scale does not mean that a fund is risk free.
- The fund has been classed as 5 because its volatility has been measured as above average.
- This indicator is based on historical data and may not be a reliable indication of the future risk profile of the fund.
- The risk and reward profile shown is not guaranteed to remain the same and may shift over time.
- Counterparty Risk: As the fund may enter into derivative agreements there is a risk that other parties may fail to meet their obligations. This may lead to delays in receiving amounts due to the fund, receiving less than is due or receiving nothing.
- Credit Risk: Fixed interest securities are affected by trends in interest rates and inflation. If interest rates go up the value of capital may fall and vice versa. Inflation will also decrease the real value of capital. The value of a fixed interest security is also affected by its credit rating.
- Currency Risk: As the fund invests in overseas securities movements in exchange rates, when not hedged, may cause the value of your investment to increase or decrease.
- Derivative Risk: The fund invests in derivatives. The use of derivatives may, through gearing, have a larger impact, positive or negative, than if only the underlying investments were held.
- For full details of the fund's risks, please see the prospectus which may be obtained from the address in the 'Practical Information' section overleaf.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	0.00%
Exit charge	0.00%

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.

Charges taken from the Fund over a year	
Ongoing charges	0.35%

Charges taken from the Fund under specific conditions	
Performance fee	0

The ongoing charges figure is based on the last year's expenses and may vary from year to year. It excludes the costs of buying or selling assets for the Fund (unless these assets are shares of another fund). For the interim period, the ongoing charges figure is based on annualised expenses for the reporting period to 30 November 2023. Where income is insufficient to pay charges the residual amount will be taken from capital. They exclude portfolio transaction costs, except in the case of an entry/exit charge paid by the fund when buying or selling units in another collective investment undertaking. You may also be charged a dilution levy on entry to or exit from the fund. For more information about charges, please see the prospectus, which may be obtained free of charge from the address in the 'Practical Information' below.

For any funds undertaking securities lending, the fund will receive 70% of the revenue generated and the remaining 30% will be received by Northern Trust as the securities lending agent. As securities lending revenue sharing does not increase the costs of running the fund, this has been excluded from the ongoing charges.
