Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Sarasin Tomorrow's World Multi Asset, a sub-fund of Sarasin Funds ICVC Class P Accumulation Shares

ISIN:GB00BKPVJ885

This Fund is managed by Sarasin Investment Funds Limited

Objectives and Investment Policy

Objective

We seek to grow the Fund (through increases in investment value and income) over a rolling 5 year period after deducting fees and costs. The Fund invests in companies that purposefully set out to solve the problems of people and the planet profitably and do not cause significant environmental or social harm.

Investment Policy

We will invest 40% to 85% of the Fund in the shares of companies from around the world, although this allocation will most typically be around 65%. We will also typically invest 25% of the Fund in bonds issued by companies and governments, with the remaining 10% invested in alternatives (including, but not limited to infrastructure, commodities, and private equity/venture capital) and cash. Exposure to any of the above asset classes may be obtained through investment in funds (including funds managed by Sarasin).

The fund is actively managed and we have the freedom to deviate away from the typical asset mix.

We have free choice to select companies to invest in from any country/region, sector or industry. As part of the investment process, we identify the long-term investment trends that drive growth and will shape the world in which we live and invest.

The Fund has an environmental, social & governance strategy. The Fund seeks to invest in companies that purposefully set out to solve the

problems of people and the planet profitably and do not cause significant environmental or social harm.

We may only use derivatives to maintain the Fund's value, manage investment risk and to gain cost-effective access to investments. Derivatives are financial contracts whose value is linked to the price of another asset (e.g. indices, rates, share prices, currencies).

The Fund's performance can be assessed by reference to the Investment Association Mixed Investment 40-85% sector as this represents a typical mix of assets held by the Fund.

Distribution Policy

Any income due from your investment is reflected in the value of your shares rather than being paid out.

Dealing Frequency

You can buy and sell shares in the Fund before 12 noon GMT on any business day in London.

Recommendation

This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

For full investment objectives and policy details please refer to the Prospectus.

Risk and Reward Profile

The Risk and Reward Indicator table demonstrates where the fund ranks in terms of its potential risk and return, calculated using the volatility of monthly returns over five years. As it is based upon how the fund has performed in the past, you should note that the fund may well perform differently in the future. The risk category shown is not guaranteed and may shift over time.

The higher the rank the greater the potential reward but the greater the risk of losing money.

The Fund is ranked at 5 reflecting observed historical returns. The fund is in this category because it has shown higher levels of volatility historically.

The following risks may not be fully captured by the Indicator:

- Investing in bonds offers you the chance to earn returns through growing your capital and generating income. Nevertheless, there is a risk that the organisation which issued the bond will fail, which would result in a loss of income to the Fund, along with its initial investment. Bond values are likely to fall if interest rates rise.
- Emerging Market Equities Risk: Emerging markets may face more political, economic or structural challenges than developed markets and shares may be less liquid, meaning that investments may not be sold quickly enough to prevent or minimize a loss; they may therefore involve a higher risk than investing in developed markets.
- The fund has charges deducted from capital. This may reduce the potential for growth.
- Bonds Risk: In stressed market conditions the value of certain bond investments may be less predictable than normal. In some cases this may make such investments harder to sell at the last quoted market price, or at a price considered to be fair. Such conditions could result in unpredictable changes in the value of your holding.
- Alternatives Risk: Some alternative investments may have lower trading volumes than other securities. In some cases this may make such investments harder to sell at the last quoted market price, or at a price considered to be fair. Such conditions could result in unpredictable changes in the value of your holding.

Charges

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	No charge
Exit charge	No charge
The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this information by contacting your financial adviser.	
Charges taken from the Fund over a year	
Ongoing charges	1.03%
Charges taken from the Fund under certain specific conditions	
Performance fee	No charge

- The ongoing charges figure is based on expenses for the twelve month period ending 31.12.2023. This figure may vary from year to year. It excludes: portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling in another fund "if any".
- We may apply a dilution adjustment to the share price of the fund to cover the dealing costs when there are large inflows and outflows from the fund. This adjustment is in place to protect the value of existing investors' holdings.
- For more information about charges, please refer to the relevant sections of the Prospectus available at www.sarasinandpartners.com
