MGTS

Blenheim Overseas Equity Fund R Inc (GB00BNDQ9088)

The Sub-fund is managed by Margetts Fund Management Limited.

Objective and Investment Policy

Investment Objective

The objective of the Sub-fund is to provide capital growth over any 7 year period.

How will the objective be achieved?

The Sub-fund will provide exposure to a global portfolio of shares. Exposure to shares domiciled, incorporated or carrying out a significant part of their business outside of the UK will be a minimum of 70%.

The Sub-fund may provide limited exposure (maximum 30%) to shares domiciled, incorporated or carrying out a significant part of their business inside of the UK and other asset classes (such as cash, bonds, commodities and property related securities).

To provide the above exposure, a minimum of 70% of the Sub-fund will be invested in active and/or passively managed collective investment schemes (which may include schemes operated by the ACD, associates or controllers of the ACD). The Sub-fund may also invest directly (maximum of 30%) in transferable securities, such as shares, investment trusts, real estate investment trusts (REITs) and structured products.

Management Style

The Sub-fund is actively managed, meaning that the manager selects investments, rather than tracking a stock exchange or index.

Derivative Use

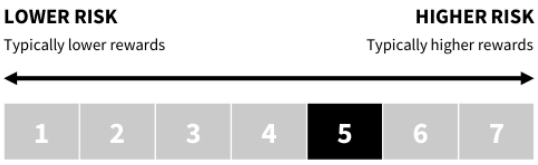

The use of derivatives and/or hedging transactions are permitted in connection with the efficient portfolio management (EPM - managing the Sub-fund in a way that is designed to reduce risk or cost and/or generate extra income or growth or both). The scheme may hold assets which embed derivatives that are used for investment purposes and efficient portfolio management, although this would not materially affect the risk exposure of the scheme.

General

Shares in the Sub-fund can be bought and sold daily (every Business Day of the Sub-fund). If you invest in income shares, income from investments in the Sub-fund will be paid out to you. If you invest in accumulation shares, income will be retained in the value of your shares.

Recommendation: this Sub-fund may not be appropriate for investors who plan to withdraw their money within 7 years.

Risk and Reward Profile

The risk and reward score is not guaranteed and may change over time. The lowest category does not mean risk free.

The Sub-fund is in this category due to the nature of its investments and previous levels of volatility (how much the value of the Sub-fund rises and falls). The risk and reward score is based on past performance and calculated in accordance with European legislation. It may not be a reliable indication of the future risk profile.

The following risk factors are relevant to the overall risk profile of the Sub-fund. A full description of risk warnings is provided in the prospectus, which is available on our website, or by requesting a copy.

Exposure to global shares may include regions considered to carry more risk. This means that the rise and fall in value could be greater than for lower risk investments, or that they may be harder to sell at expected prices.

Exposure to currencies other than the base currency is subject to currency fluctuations which could add to the rise and fall in value of investments.

Share prices fluctuate in value due to factors including political, economic, company earnings and corporate events.

Investments in collective investment schemes may provide a higher level of diversification but may also increase costs. The underlying collective investment schemes may also experience operational or credit issues which could impact liquidity (the ability to sell) or capital value.

There may be a significant exposure to cash or money markets. If investment markets generally rose during this period, against expectation, then returns would be reduced.

The objective, policy and strategy set out above should align with the objectives of the investors and their minimum timeframe for investment.

Charges

The charges you pay are used to pay the costs of running the Sub-fund, including the costs of marketing and distribution. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry Charge	0.00%
Exit Charge	0.00%

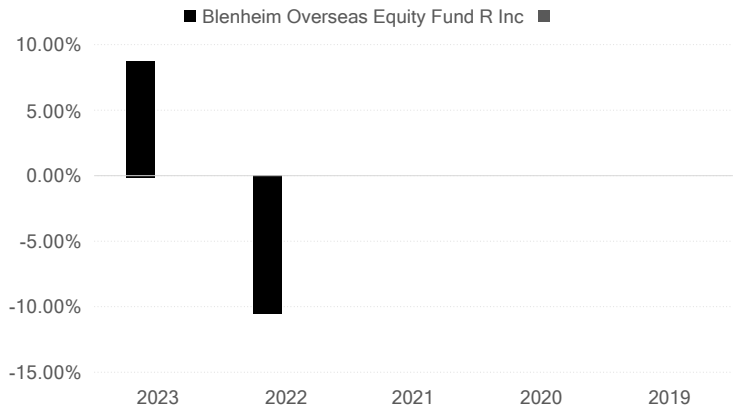

Charges taken from the Sub-fund over a year	
Ongoing Charges	0.95%
