Credit quality ratings are based on the ICE Bank of America ("ICE BofA") Master High Yield Index composite ratings. The ICE BofA composite ratings are updated once a month on the last calendar day of the month based on information available up to and including the third business day prior to the last business day of the month. The ICE BofA composite rating algorithm is based on an average of the ratings of three agencies (to the extent rated). Generally the composite is based on an average of Moody's, S&P and Fitch. For holdings that are unrated by the ICE BofA Index composite, credit quality ratings are based on S&P's rating. Holdings that are unrated by S&P may be assigned an equivalent rating by the investment manager. No NRSO has been involved with the calculation of credit quality and the ratings of underlying portfolio holdings should not be viewed as a rating of the portfolio itself. Portfolio holdings, underlying ratings of holdings and credit quality composition may change materially over time.

**Annualised Yield = (Dividend per Share ÷ Number of Days in the Month) x 365 ÷ Month-end NAV x 100%. The Number of Days in the 1st month is calculated from the inception date of the share class.

Please note dividend yield is for information only, it is not indicative of return of the Fund and does not imply perspective yields of the Fund. A positive distribution yield does not imply a positive return.

The Fund aims to pay dividend on a regular basis. However, dividend amount or dividend rate is not guaranteed. In respect of Distributing Shares, the Directors of the Company may at its discretion pay dividends out of the capital of the Fund. Dividends paid out of capital amount to a return or withdrawal of part of an investor's original investment or from any capital gains attributable to that original investment. Such dividends may result in an immediate decrease in the net asset value of the relevant shares. The Directors of the Company may determine if and to what extent distributions paid include realized capital gains and/or paid out of capital attributable to the relevant share class. (Pay attention to Important Notes 5)

[#] Hedged Class. Hedged Classes which are designated in a currency other than USD are hedged into the Base Currency of the Portfolios (i.e. USD). Further details are set out in the Hong Kong Prospectus under the section "Share Class Hedging".

***The ongoing charges figure is based on the annual expenses for the period ending 31 December 2023.
