Due to the active nature of the management process, the Fund's performance profile may deviate significantly from that of the FTSE All Share ex FTSE 100 ex Investment Trusts Index.
- Please note: The Fund's ability to buy and sell small and mid-capitalisation shares and the associated costs can be affected during periods of market stress. In certain circumstances investors in the fund may not be able to sell their investment when they want to.

Derivative usage

- The fund may use derivatives to reduce risk, to reduce cost and/or generate additional income or growth consistent with the risk profile of the fund (often referred to as 'Efficient Portfolio Management').
- Derivative usage in the fund is expected to be very limited. Where derivatives are used, this would mainly be in response to significant inflows into the fund so that in these instances, cash can be invested while maintaining the fund's existing allocations to company shares.
