

Z Accumulation GBP | Data as at 31.03.2024

### Fund objectives and investment policy

The fund aims to provide monthly income equal to 5% per annum by investing in a diversified range of assets and markets worldwide. This cannot be guaranteed and your capital is at risk.

Above is the Investment Objective of the fund. For details on the full fund's Investment Policy please see the KIID.

Relevant risks associated with an investment in this fund are shown below and should be carefully considered before making any investment. Past Performance is not a guide to future performance and may not be repeated. The value of investments and the income from them may go down as well as up and investors may not get back the amounts originally invested. Exchange rate changes may cause the value of investments to fall as well as rise. Performance data does not take into account any commissions and costs, if any, charged when units or shares of any fund, as applicable, are issued and redeemed.

Z Accumulation GBP | Data as at 31.03.2024

## 10 year return of GBP 10,000

The chart is for illustrative purposes only and does not reflect an actual return on any investment.

Returns are calculated bid to bid (which means performance does not include the effect of any initial charges), net income reinvested, net of fees.

## Risk considerations

**Concentration risk:** - The fund may be concentrated in a limited number of geographical regions, industry sectors, markets and/or individual positions. This may result in large changes in the value of the fund, both up or down.

**Currency risk:** - The fund may lose value as a result of movements in foreign exchange rates.

**Derivatives risk:** - Derivatives may be used to manage the portfolio efficiently. The fund may also materially invest in derivatives including using short selling and leverage techniques with the aim of making a return. A derivative may not perform as expected, may create losses greater than the cost of the derivative and may result in losses to the fund.

**Operational risk:** - Operational processes, including those related to the safekeeping of assets, may fail. This may result in losses to the fund.

**Performance risk:** - Investment objectives express an intended result but there is no guarantee that such a result will be achieved. Depending on market conditions and the macro economic environment, investment objectives may become more difficult to achieve.

**Capital risk / distribution policy:** - As the fund intends to pay dividends regardless of its performance, a dividend may represent a return of part of the amount you invested.

**Credit risk:** - A decline in the financial health of an issuer could cause the value of its bonds to fall or become worthless.

**High yield bond risk:** - High yield bonds (normally lower rated or unrated) generally carry greater market, credit and liquidity risk.

**IBOR risk:** - The transition of the financial markets away from the use of interbank offered rates (IBORs) to alternative reference rates may impact the valuation of certain holdings and disrupt liquidity in certain instruments. This may impact the investment performance of the fund.

**Liquidity risk:** - In difficult market conditions, the fund may not be able to sell a security for full value or at all. This could affect performance and could cause the fund to defer or suspend redemptions of its shares.

**Counterparty risk:** - The fund may have contractual agreements with counterparties. If a counterparty is unable to fulfil their obligations, the sum that they owe to the fund may be lost in part or in whole.

**Investments in other collective investment schemes:** - The fund will invest mainly in other collective investment schemes.

**Market risk:** - The value of investments can go up and down and an investor may not get back the amount initially invested.

**Capital erosion:** - As a result of fees being charged to capital, the distributable income of the fund may be higher, but there is the potential that performance or capital value may be eroded.

## Synthetic risk & reward indicator (SRRI)

### LOWER RISK

Potentially lower reward

### HIGHER RISK

Potentially higher reward

The risk category was calculated using historical performance data and may not be a reliable indicator of the fund's future risk profile. The fund's risk category is not guaranteed to remain fixed. Please see the Key Investor Information Document for more information.

## Risk statistics & financial ratios

	Fund	Comparator
<b>Annual volatility (%) (3y)</b>	7.3	7.0
<b>Beta (3y)</b>	1.0	-
<b>Sharpe ratio (3y)</b>	0.0	-0.1

Source: Morningstar. The above ratios are based on bid to bid price based performance data. Please note this is an accumulation share class and as such the investor will not receive an income distribution. Any income will be reinvested into the fund.

## Important information

---

### Costs:

Certain costs associated with your investment in the fund may be incurred in a different currency to that of your investment. These costs may increase or decrease as a result of currency and exchange rate fluctuations.

If a performance fee is applicable to this fund, details of the performance fee model and its computation methodology can be found in the fund's prospectus. This includes a description of the performance fee calculation methodology, the dates on which the performance fee is paid and details of how the performance fee is calculated in relation to the fund's performance fee benchmark, which may differ from the benchmark in the fund's investment objective or investment policy.

For further information regarding the costs and charges associated with your investment, please consult the funds' offering documents and annual report.

### General:

The fund is an authorised unit trust. A Key Investor Information Document and Supplementary Information Document are available. These can be requested via our website at [www.Schroders.co.uk](http://www.Schroders.co.uk) or call one of our Investor Services Team on 0800 182 2399 for a printed version.
