Risk Profile

Lower risk Potentially lower reward **Higher risk** Potentially higher reward

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and return, calculated using the volatility of monthly returns over five years. As it is based upon how the Fund has performed in the past, you should note that the Fund may well perform differently in the future. The risk category shown is not guaranteed and may shift over time. The higher the rank the greater the potential reward but the greater the risk of losing money. The Fund is ranked at 5 reflecting observed historical returns. The fund is in this category because it has shown higher levels of volatility historically.

For further details please see the full Prospectus, Additional Information Document and KIID as well as the Semi Annual and Annual Reports which are available from the above website.

This document is intended for retail investors. You should not act or rely on this document but should contact your professional adviser.

This document has been issued by Sarasin & Partners LLP of Juxon House, 100 St Paul's Churchyard, London, EC4M 8BU, a limited liability partnership registered in England and Wales with registered number 0C329859, and which is authorised and regulated by the Financial Conduct Authority with firm reference number 475111.

This document has been prepared for marketing and information purposes only and is not a solicitation, or an offer to buy or sell any security. The information on which the material is based has been obtained in good faith, from sources that we believe to be reliable, but we have not independently verified such information and we make no representation or warranty, express or implied, as to its accuracy. All expressions of opinion are subject to change without notice. This document should not be relied on for accounting, legal or tax advice, or investment recommendations. Reliance should not be placed on the views and information in this material when taking individual investment and/or strategic decisions.

The value of investments and any income derived from them can fall as well as rise and investors may not get back the amount originally invested. If investing in foreign currencies, the return in the investor's reference currency may increase or decrease as a result of currency fluctuations. Past performance is not a reliable indicator of future results and may not be repeated. Forecasts are not a reliable indicator of future performance.

There is no minimum investment period, though we would recommend that you view your investment as a medium to long term one (i.e. 5 to 10 years). Investments in the transferable securities of smaller companies may be less liquid than the securities of larger companies as a result of inadequate trading volume or restrictions on trading. Transferable securities in smaller companies may possess greater potential for capital appreciation, but also involve risks such as limited product lines, markets, financial or managerial resources, and trading in such securities may be subject to more abrupt price movements than trading in the securities of larger companies. Frequent political and social unrest in Emerging Markets and the high inflation and interest rates this tends to encourage, may lead to sharp swings in foreign currency markets and stock markets. There is also an inherent risk in the smaller size of many Emerging Markets, especially since this means restricted liquidity. Further risks to consider are restrictions on foreigners making currency transactions or investments. The Fund may invest in derivatives for efficient portfolio management purposes. This means Derivatives can only be used to manage the Fund more efficiently in an attempt to reduce the overall risk of its investments, reduce the costs of investing or generate additional capital or income, although this may not be achieved and may create losses greater than the cost of the derivative. Neither Sarasin & Partners LLP nor any other member of the J. Safra Sarasin Holding Ltd group accepts any liability or responsibility whatsoever for any consequential loss of any kind arising out of the use of this document or any part of its contents. The use of this document should not be regarded as a substitute for the exercise by the recipient of their own judgement. Sarasin & Partners LLP and/or any person connected with it may act upon or make use of the material referred to herein and/or any of the information upon which it is based, prior to publication of this document.

Where the data in this document comes partially from third-party sources the accuracy, completeness or correctness of the information contained in this publication is not guaranteed, and third-party data is provided without any warranties of any kind.
