Reference Index key features

The MSCI Europe Information Technology ESG Screened 20-35 Select Index aims to reflect the performance of the following market:

- Large and mid-cap companies in Developed Market European countries
- All securities in the index are classified in the Information Technology sector as per the Global Industry Classification Standard (GICS)
- Weighted by free-float adjusted market capitalisation in accordance with the MSCI Capped Indexes methodology, so the largest group entity within each Index is capped at 35% while all other group entities are capped at 20% with a buffer of 10% applied on these limits at each index rebalancing and additional monthly ad-hoc rebalancing as necessary
- Securities issued by entities failing to meet the following ESG standards, amongst others, are excluded: are associated with controversial weapons, are assigned an MSCI ESG Rating of 'CCC' or are unrated, derive certain revenues from tobacco, conventional weapons, nuclear weapons, civilian firearms, thermal coal, unconventional and/or arctic oil and gas extraction, and palm oil; and any issuer with an MSCI Controversies Score of 0
- Reduced greenhouse gas intensity relative to the parent index

Additional information on the index, selection and weighting methodology is available at www.msci.com

Key Risks

- **The value of your investment may go down as well as up and past performance does not predict future returns. Investor capital may be at risk up to a total loss.**
- The Fund is exposed to the currency markets which may be highly volatile. Large price swings can occur in such markets within very short periods and may result in your investment suffering a loss.
- The value of an investment in shares will depend on a number of factors including, but not limited to, market and economic conditions, sector, geographical region and political events.
- The Fund may have exposure to a small number of investments or have exposure to a few countries, industries, sectors of the economy or issuers. This can make the share price of the Fund fluctuate significantly.
- The Fund is exposed to market movements in a single country or region which may be adversely affected by political or economic developments, government action or natural events that do not affect a fund investing in broader markets.
- The Fund has a focus on a single or narrow range of industry, sector or types of companies and performance may not reflect a rise in broader markets.
