## Investment Objective

The Fund aims to achieve capital growth and income, through investment in a portfolio of investment grade securities over 5 years.

## Investment Policy

To achieve its objective, the Fund will invest in investment grade government and non-government fixed and variable interest rate securities worldwide. Investment grade is a rating which is BBB or higher from the rating agency Standard & Poor's or the equivalent rating of another internationally recognised rating agency such as Fitch or Moody's.

The Fund may also invest in other transferable securities such as units/shares in investment funds, warrants, cash and near cash and deposits. Derivatives (investments whose value is linked to another underlying investment such as shares or performance of a stock exchange) may be used to reduce risk or cost and/or to generate extra income and growth.

There is no guarantee that the Fund will achieve its objective over any particular period or at all.

To help investors compare funds with broadly similar characteristics, the Investment Association (the trade body that represents UK investment managers) has grouped many funds sold in the UK into sectors. This Fund is classified in the Investment Association Global Mixed Bond sector. Investors can use this sector to assess the Fund's performance.
