March 2024 (data as of 29 February 2024)

OBJECTIVE AND INVESTMENT POLICY

Objective

To grow the value of your investment by greater than 3% above the Consumer Price Index (CPI) per annum after fees over a minimum five year period, by strategically allocating the fund's assets within a diversified range of asset classes in markets around the world.

There is no guarantee that the objective will be achieved over this or any other time period, and your capital is at risk.

Investment policy

What the fund invests in

The fund may invest directly, or indirectly via derivatives, in the following instruments:

- Exchange traded funds and notes.
- Company shares.
- Fixed interest securities (known as bonds), whether issued by a company, a government or another entity.
- Other funds managed by Artemis.
- Money market instruments, cash and near cash.

Use of derivatives

The fund may use derivatives:

- For investment purposes to take both long and short positions. This may include: futures, options, forwards and total return swaps on both exchange traded and over the counter (i) equity and fixed interest securities (whether individual securities or baskets or indices to obtain wider market exposure); and (ii) currencies other than Pound Sterling.
- to produce additional income or growth
- to reduce risk
- to manage the fund efficiently
- to create leverage.

Where the fund invests

- The fund may invest within the UK and internationally and the manager will not be restricted in the choice of investments either by industry or the geographical spread of the portfolio.

Industries the fund invests in

- Any

Other limitations specific to this fund

- The fund may gain exposure of up to 100% of the fund's Net Asset Value (calculated on a net exposure basis) in any combination of equities, bonds, property or commodities (indirectly).
- Investments in money market instruments, cash and near cash will lie in a range of 0%-100% of the fund's Net Asset Value.
- The fund will not typically be net short equities. However, in volatile market conditions the fund may be net short equities, but never exceeding 50% of the fund's Net Asset Value.
- The fund may have a net short exposure (up to 100%) to bonds.
- Total gross exposure to currencies other than Pound Sterling (long and short) via FX forwards, FX futures, exchange traded funds, and cash or cash equivalents, shall lie in the range of 0% - 200% of the fund's Net Asset Value.

Investment strategy

- The fund is actively managed.
- The manager will use its discretion to actively manage the portfolio and the proportion of the fund's assets which are invested in each asset class in response to the manager's view of market conditions and its analysis of macro-economic factors.
- The fund allocates to, and selects investments in, different asset classes, geographies, industries and individual companies and issuers with the aim of performing well when markets are favourable and preserving capital when markets are poor. For example, if the manager believes that bond market conditions are less favourable then the fund's net bond exposure can be reduced by short selling bonds or by investing a higher proportion of the fund's assets in asset classes other than bonds.

Benchmarks

- UK Consumer Price Index +3%
A widely-used indicator of UK inflation. It acts as a 'target benchmark' that the fund aims to outperform by at least 3% per annum over at least five years.
- IA Flexible Investment NR
A group of other asset managers' funds that invest in similar asset types as this fund, collated by the Investment Association. It acts as a 'comparator benchmark' against which the fund's performance can be compared. Management of the fund is not restricted by this benchmark.

PERCENTAGE GROWTH

12 MONTHS TO QUARTER END (31 DECEMBER)

12 MONTHS TO YEAR END (31 DECEMBER)

Source: Lipper Limited from 26 May 2009 to 29 February 2024. All figures show total returns with dividends and/or income reinvested, net of all charges. Performance does not take account of any costs incurred when investors buy or sell the fund. Returns may vary as a result of currency fluctuations if the investor's currency is different to that of the class. This class may have charges or a hedging approach different from those in the IA sector benchmark.

RISK CONSIDERATIONS

To ensure you understand whether this fund is suitable for you, please read the Key Investor Information which is available, along with the fund's Prospectus, from www.artemisfunds.com or www.fundinfo.com.

The fund is exposed to the following risks:

Market volatility risk	The value of the fund and any income from it can fall or rise because of movements in stockmarkets, currencies and interest rates, each of which can move irrationally and be affected unpredictably by diverse factors, including political and economic events.
Currency risk	The fund's assets may be priced in currencies other than the fund base currency. Changes in currency exchange rates can therefore affect the fund's value.
Derivatives risk	The fund may invest extensively in derivatives with the aim of profiting from falling ('shorting') as well as rising prices. Should the asset's value vary in an unexpected way, the fund value will reduce. Refer to the investment policy in fund's prospectus for further details on how derivatives may be used.
Cash risk	The fund may hold a large amount of cash. If it does so when markets are rising, the fund's returns could be less than if the cash was fully invested in other types of assets.
Government and public securities risk	The fund may invest more than 35% of its value in transferable securities and money market instruments issued or guaranteed by the United Kingdom, United States or Germany. Refer to the investment policy in the fund's prospectus for further details on how large exposures to government and public securities may be held.
Leverage risk	The fund may operate with a significant amount of leverage. Leverage occurs when the economic exposure created by the use of derivatives is greater than the amount invested. A leveraged portfolio may result in large fluctuations in its value and therefore entails a high degree of risk including the risk that losses may be substantial.

OTHER INFORMATION

This is a marketing communication. Before making any final investment decisions, refer to the fund prospectus, available in English, and KIID/KID, available in English and in your local language depending on local country registration, from www.artemisfunds.com or www.fundinfo.com.

Investment in the fund concerns the acquisition of units in the fund and not in the underlying assets of the fund.

The fund is an authorised unit trust scheme. For further information, visit www.artemisfunds.com/unittrusts.

Visit www.artemisfunds.com/glossary for an explanation of investment terms.

Third parties (including FTSE and Morningstar) whose data may be included in this document do not accept any liability for errors or omissions. For information, visit www.artemisfunds.com/third-party-data.

Artemis has obtained any research and analysis in this communication for its own use. Although this communication is based on sources of information that Artemis believes to be reliable, no guarantee is given as to its accuracy or completeness.

Any forward-looking statements are based on Artemis' current expectations and projections and are subject to change without notice.

Issued by Artemis Fund Managers Ltd which is authorised and regulated by the Financial Conduct Authority.

PRICE AND YIELD(S)

Price	100.78p
Historic yield	1.60%

Source: Artemis as at 29 February 2024.
The historic yield reflects distributions declared over the past 12 months as a percentage of the price, as at the date shown. It does not include any preliminary charge and investors may be subject to tax on their distributions.

CHARGES

Initial charge	0%
Ongoing charge	0.725%

The ongoing charge covers the annual operating expenses of running the fund and is shown as at the date of the Key Investor Information Document, where further information about the fund's charges can be found. Additional costs may be incurred, such as portfolio transaction costs and transfer taxes, which may reduce performance. For further information, visit www.artemisfunds.com/charges.

RISK AND REWARD PROFILE

The fund is in the category shown due to historic volatility (how much and how quickly the value of shares in the fund may have risen and fallen in the past due to movements in markets, currencies and interest rates). It may not be a reliable indication of the future risk profile of the fund.
