R Acc GBP

31 January 2023

Objective

To generate growth over the long term (5 years or more) by investing in a diversified range of funds which meet ethical criteria.

Performance Target: To achieve a return in excess of that of global stock markets as represented by the MSCI World Index over three years (before charges). The Performance Target is the level of performance the management team hopes to achieve for the fund. There is however no certainty or promise that they will achieve the Performance Target.

The Manager believes this is an appropriate target for the fund based on the investment policy of the fund.

Portfolio securities

- The fund will invest at least 60% in actively managed funds, to obtain broad exposure to a range of diversified investments from a range of managers.
- It may invest up to 40% in passively managed funds from a range of managers.
- The manager selects funds which have ethical, socially responsible or environmental considerations in their investment process.
- At least 70% of the fund will be invested in equities (company shares).
- The rest of the fund may be invested in a selection of other assets such as equities (company shares including property shares), commercial property and funds that can use a combination of traditional assets (such as equities and bonds) and investment strategies based on derivatives.

These figures do not include the initial charge; if this is paid it will reduce performance from that shown.
