LIBERO CAUTIOUS FUND - 'B' SHARE CLASS

FACTSHEET
AUGUST 2022

QUILTER CHEVIOT

OBJECTIVE

The objective of the Fund is to provide income and capital growth, net of fees, over the medium term (a three-year rolling period).

The Fund will aim to achieve its investment objective by providing a medium to low risk environment focusing on capital preservation. This means that the Fund will be managed with a cautious asset allocation, where the expected standard deviation of returns will be modest compared to that of equity markets. This will be achieved through investment in a portfolio of transferable securities which may include: equity securities (10% to 50%), corporate bonds and government bonds (45% to 90%), permitted closed-ended funds including investment trusts and REITs (up to 20%) and warrants (up to 5%).

MARKET COMMENTARY

Financial markets recovered strongly in July after the fairly consistent falls seen so far this year. Libero Cautious participated increasing by 1.93%, reducing the year to date decline to -5.44%.

July saw solid gains for global equity markets with developed markets in particular rallying by around 8%. Stocks managed to rise despite, or arguably in part because of, a fairly soft overall batch of economic data. Against this generally weaker growth backdrop, markets increasingly priced in interest rate cuts from the Federal Reserve in 2023. This anticipation of a policy pivot seemed to be the key tailwind for risk assets over the month.

Global growth stocks benefited most, recouping some of their heavy year-to-date losses. Ashtead, Experian and Intermediate Capital Group were all up at the top of the list of best performers over the month, whilst it has some of H1's best performers that lagged in July, namely British American Tobacco, Standard Chartered, HSBC and GlaxoSmithKline.

Although certainty with regard to inflation remains in short supply, Cautious remains diversified, structured in part to benefit from further recovery, whilst leaving in place investments designed to protect capital should there be another setback. The portfolio remains highly liquid and so we will be able to make adjustments as events unfold.

INVESTMENT THEMES

Haleon

Haleon is a consumer healthcare business that demerged from GSK in July 2022. It has strong brands and market positions in Oral Health (27% of sales), Pain Relief (23%), Digestive Health (21%), Vitamins (16%) and Respiratory Health (12%). We expect consumer health to remain faster growing than other consumer staples categories. Post the demerger we decided to add to the holding.
