INVESTMENT MANAGER

Newton Investment Management: Newton aims to deliver outcomes for its clients across active equities, income, absolute return, multi-asset, thematic and sustainable strategies. Its capabilities are driven by its global investment research platform which harnesses a breadth of both fundamental and quantitative research.

INVESTMENT OBJECTIVE

The Fund aims to achieve capital growth over the long term (5 years or more).

PERFORMANCE BENCHMARK

The Fund will measure its performance against the FTSE All-Share TR Index as a comparator benchmark (the "Benchmark"). The Fund will use the Benchmark as an appropriate comparator because, while it does not take ESG factors into account, it includes a broad representation of the asset class, sectors and geographical area in which the Fund predominantly invests.

The Fund is actively managed, which means the Investment Manager has discretion over the selection of investments subject to the investment objective and policies disclosed in the Prospectus. While the Fund's holdings may include constituents of the Benchmark, the selection of investments and their weightings in the portfolio are not influenced by the Benchmark. The investment strategy does not restrict the extent to which the Investment Manager may deviate from the Benchmark.

KEY DATES

Fund launch	08 Feb 2002
Close of financial year	30 Jun
Distributions	31 Oct

HISTORIC YIELD (AS AT 31 MARCH 2024)

Share class	Yield
Institutional Shares W (Accumulation)	1.36%

Historic yield figures are calculated on the basis of dividing the total dividends paid by the fund over the last 12 months by the fund's current price. Historic yields are shown on a net basis, do not include the impact of any initial charge and investors may be subject to tax on distributions. Gross of taxes. Please note, dividend income from the fund's US investments will be subject to 30% withholding tax.

KEY RISKS ASSOCIATED WITH THIS FUND

- There is no guarantee that the Fund will achieve its objectives.
- This Fund invests in international markets which means it is exposed to changes in currency rates which could affect the value of the Fund.
- Derivatives are highly sensitive to changes in the value of the asset from which their value is derived. A small movement in the value of the underlying asset can cause a large movement in the value of the derivative. This can increase the sizes of losses and gains, causing the value of your investment to fluctuate. When using derivatives, the Fund can lose significantly more than the amount it has invested in derivatives.
- A fall in the value of a single investment may have a significant impact on the value of the Fund because it typically invests in a limited number of investments.
- The Fund follows a sustainable investment approach, which may cause it to perform differently than funds that have a similar objective but which do not integrate sustainable investment criteria when selecting securities. The Fund will not engage in stock lending activities and, therefore, may forego any additional returns that may be produced through such activities.
- The insolvency of any institutions providing services such as custody of assets or acting as a counterparty to derivatives or other contractual arrangements, may expose the Fund to financial loss.
- Where the Fund invests significantly in a single market, this may have a material impact on the value of the Fund.
- A complete description of risk factors is set out in the Prospectus in the section entitled "Risk Factors".

Before subscribing, investors should read the most recent Prospectus and KIID for each fund in which they want to invest. Go to www.bnymellonim.com

The Prospectus and KIID are available in English and in an official language of the jurisdictions in which the Fund is registered for public sale.

If you are unsure which type of investment is right for you, please contact a financial adviser.
