**Past performance is not a reliable indicator of future results.** Source for performance figures - Franklin Templeton. Performance is calculated on a NAV to NAV basis, with gross income reinvested without initial charges but reflecting annual management fees. Sales charges, taxes and other locally applied costs to be paid by an investor have not been deducted. Performance is calculated using estimated dividends, and is revised (downward or upward) when the actual dividend differs from the estimated dividend. Revised performance returns may not be available until the next reporting period. Comparisons to relevant indexes and peer groups are included as a standard against which the performance of a fund can be measured. Returns of the indexes and peer groups do not reflect any fees, expenses or sales charges. An investor cannot invest directly in an index or peer group. Performance prior to the share class inception date noted has been simulated by using the performance of another share class of the same fund, which had higher fees but no longer exists. This Fund may not be exchangeable with other Franklin Templeton managed funds. Please see the Fund's offering documents or contact your service agent for more information. ## Investment risks

The fund does not offer any capital guarantee or protection and you may not get back the amount invested.

**The fund is subject to the following risks which are materially relevant but may not be adequately captured by the indicator:**

**Investment in company shares:** The fund invests in shares of companies, and the value of these shares can be negatively affected by changes in the company, its industry or the economy in which it operates.

**Geographical focus:** This fund invests primarily in the United Kingdom, which means that it is more sensitive to local economic, market, political or regulatory events in the United Kingdom, and will be more affected by these events than other funds that invest in a broader range of regions.

**Modelling:** Proprietary models that may be used to evaluate securities, or securities markets, are based on certain assumptions concerning the interplay of market factors which may not accurately capture the risk of the underlying investments, resulting in an misestimation of fund quantifiable risks. The markets or prices of individual securities may be affected by factors not foreseen in developing the models.

**Fund operations:** The fund is subject to the risk of loss resulting from inadequate or failed internal processes, people or systems or those of third parties such as those responsible for the custody of its assets.

For further explanation on the risks associated with an investment in the fund, please refer to the section entitled "Risk Factors" in the prospectus.

**Please refer to the Key Investor Information and Prospectus documentation, which describe the full objective and risk factors associated with this Fund.**

## Definitions

**IA Sector Peer Group:** The ACD considers that the Investment Association (IA) Sectors provide an appropriate comparison for performance purposes given the fund's investment objective and policy. Please refer to the Prospectus for further information.

**SRRI / Risk and reward profile:** There is no guarantee that the fund will remain in the indicator category shown above and the categorisation of the fund may shift over time. Historical data, which is used in calculating the indicator, may not be a reliable indicator of the future risk profile of this fund. The lowest category does not mean a risk-free investment. The fund does not offer any capital guarantee or protection.
