

Omnis Managed Cautious Fund

B Accumulation Class - 28 March 2024

Investment objective

The Fund aims to achieve a return, over a five year rolling period and after all fees and expenses, consisting primarily of capital growth (and potentially a low level of income) which exceeds a composite benchmark based on the FTSE All Share TR Index (20%), Russell 1000 TR Index (10%), MSCI Daily (ex UK) EAFE TR Index (10%), SONIA GBP (10%), ICE BofA Global Broad Market TR Index (15%) and ICE BofA Sterling Broad Market TR Index (35%).

Investment policy

It is expected that at least 51% of the fund's exposures will be to cash, cash equivalents and fixed income investments. The balance of the fund's exposure will be to equities. Investments will not be confined to any particular sector.

At least 70% of exposure will be achieved through investment in collective investment schemes (including exchange traded funds and other schemes managed and operated by the ACD or its associates). The remainder of the fund may be invested directly in transferable securities, money market instruments, warrants, cash, near cash and deposits as detailed in the Prospectus.

Derivatives may also be used for the purposes of hedging and efficient portfolio management.

About Omnis Investments
