^{^^}The amount of income generated for distribution after deducting all expenses. *The fraction of a fund invested differently to its benchmark. A 100% active share is a fund with no holdings in the benchmark, a 0% active share is a fund identical to the benchmark. **The higher the percentage, the more the fund relies on a smaller number of stocks to generate dividend income. The lower the percentage, the greater the number of stocks contributing to the fund's overall dividend yield. ***The ratio of a company's profits to the amount of dividend it pays to shareholders. A dividend cover of 2 times means the company's profits are twice the amount being paid as a dividend, whilst a company with a dividend cover of 1 times is paying out a dividend equal to all of its net profits.

Ongoing Charges Figure*	0.90%
Included within the OCF is the Annual Management Charge**	0.75%

*The Ongoing Charges Figure (OCF) covers all aspects of operating a fund during the course of its financial year. These include the annual charge for managing the fund, administration and independent oversight functions, such as trustee, depository, custody, legal and audit fees. The OCF **excludes** portfolio transaction costs except for an entry/exit charge paid by the Fund when buying or selling units in another fund. This will have an impact on the realisable value of the investment, particularly in the short term. **These are the annual costs of running and managing the Fund.
