There are nine funds aimed at different risk tolerances, ranging from Defensive to Maximum Growth. The Fund predominantly invests in equities, bonds, real assets including commercial property, absolute return funds, commodities, cash and other assets. The Fund may also invest to a lesser extent, in exchange traded funds, investment trusts, direct fixed income products and use derivatives for efficient portfolio management and investment purposes.

The funds are dynamically managed by our Asset Allocation Committee, which is made up of a senior team of investment professionals and chaired by our Chief Investment Officer, Chris Godding, to ensure they meet the ever-changing investment environment and stay in line with their objectives and risk level.

We currently have more than £9 billion of client assets invested in the full range of portfolios.

## Investment Objectives of the Fund

The Income fund aims to deliver a higher level of income with the potential for modest capital growth over the long term. The Fund is riskier than the Cautious Fund but has the potential to give you higher returns. The Fund adopts a low to moderate risk approach.
