## About fund performance

Investors should always consider performance in relation to the objective of the fund and over periods of at least five years. If a fund has risen in value, it doesn't mean it is meeting its objective – especially if the fund is aiming to outperform a particular benchmark or meet a risk target. The same applies if the fund has fallen in value.

## Our risk rating

**Above-average risk**

Above average risk funds typically invest in one single investment type or geographical region, for example regional equities (shares) or global bonds. This means that investors are completely exposed to the performance of that single investment type or region. These funds could experience lengthy periods where their value goes down depending on market conditions. However, these funds can also rise in value quite significantly and have historically provided good long-term growth. Because of their narrow investment focus, they're better suited to investors with at least five years to invest and to use in combination with other funds as part of a diversified portfolio.

## Fund objective

This fund invests mainly in equities (shares), both in the UK and overseas markets. The fund has approximately 60% invested in the shares of UK companies and the remaining 40% is invested in overseas companies, split between the USA, Europe ex-UK, Japan and Pacific Rim. The fund aims to provide returns consistent with the markets in which it invests.

## Fund performance

The following graph and tables show the performance of the fund over various time periods compared to the fund's benchmark (if there is one). All performance information is as at 31 Dec 2023 unless otherwise stated.

In the graph, performance is shown since launch if the fund is less than five years old.

## Risks specific to this fund

There is no guarantee the fund will meet its objective. The value of an investment can fall as well as rise and investors could get back less than they originally invested. All funds carry a level of risk and the information below outlines the key risks for this fund.

---

**Currency risk** - this fund invests overseas so its value will go up and down in line with changes in currency exchange rates. This could be good for the fund or bad, particularly if exchange rates are volatile.

---

**Third party risk** - in the event that the underlying investments which the fund invests in suspend trading, Aegon may defer trading and/or payment to investors. The value ultimately payable will depend on the amount Aegon receives or expects to receive from the underlying investments.

---

**Benchmark disclaimer** - the Aegon BlackRock 60/40 Global Equity Tracker (ARC) fund is/are not in any way sponsored, endorsed, sold or promoted by FTSE International Limited ("FTSE") or the London Stock Exchange Group companies ("LSEG") (together the "Licensor Parties") and none of the Licensor Parties make any claim, prediction, warranty or representation whatsoever, expressly or impliedly, either as to (i) the results to be obtained from the use of the Composite Index (the "Index") (upon which the Aegon BlackRock 60/40 Global Equity Tracker (ARC) fund is based), (ii) the figure at which the Index is said to stand at any particular time on any particular day or otherwise, or (iii) the suitability of the Index for the purpose to which it is being put in connection with the Aegon BlackRock 60/40 Global Equity Tracker (ARC) fund.

None of the Licensor Parties have provided or will provide any financial or investment advice or recommendation in relation to the Index to Scottish Equitable plc. or to its clients. The Index is calculated by FTSE or its agent. None of the Licensor Parties shall be (a) liable (whether in negligence or otherwise) to any person for any error in the Index or (b) under any obligation to advise any person of any error therein.

All rights in the Index vest in FTSE. "FTSE®" is a trade mark of LSEG and is used by FTSE under licence.
