

Principal Asset Allocation Fund July-21

Fund Overview

The Principal Asset Allocation (PAA) Fund is a UCITS mutual fund authorised by the Central Bank of Ireland. It uses low Beta strategies to target low volatility and maximise risk-adjusted returns for investors. The Fund comprises strategic asset allocations to equity and fixed-income securities alongside deploying opportunistic market neutral strategies. It employs a Beta Hedging strategy on equity allocation by coupling long stocks exposure with a short Stoxx 600 future to minimise volatility. The fund adopts a cautious approach and aims to provide low volatility and uncorrelated returns in all market and economic conditions.
