PERFORMANCE CONTRIBUTORS AND DETRACTORS

In November, the Alquity India Y class rose 6.0% in US Dollar terms (net) versus the 6.7% increase in the relevant Indian index.

The fund significantly benefited from the overweight to the Property sector, as well as strong stock selection within the Consumer Discretionary sector, but suffered from the underweight in Healthcare & Utilities. The strong performance of various public sector related companies, where the fund has zero exposure for ESG reasons, also was a negative contributor.

At a stock level, Metro Brands (retail), Uno Minda (auto parts) and Subros (auto parts) were positive contributors.
