

HSBC ETFs PLC - HSBC MSCI China UCITS ETF

HMCH LN

30 Jun 2021

Fund Objective and Strategy

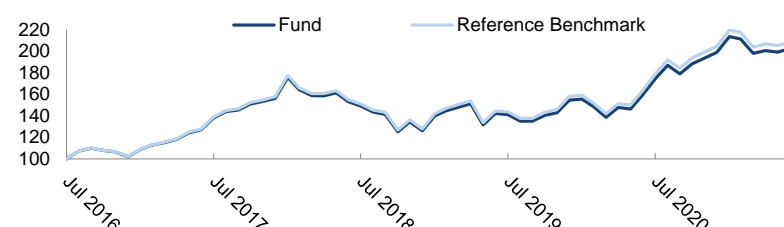

Investment Objective

The Fund aims to track as closely as possible the returns of the MSCI China Index (the "Index"). The Fund will invest in or gain exposure to shares of companies which make up the Index.

Investment Policy

The Index is made up of the largest stock market listed companies in China, as defined by the Index provider. The Fund will be passively managed and will aim to invest in the shares of the companies in generally the same proportion as in the Index. However, there may be circumstances when it is not possible or practical for the Fund to invest in all constituents of the Index. If the Fund cannot invest directly in the companies that constitute the Index, it may gain exposure by using other investments such as depositary receipts, derivatives or funds. The Fund may also invest in China A-shares through the Shanghai-Hong Kong Stock Connect and/or Shenzhen-Hong Kong Stock Connect and in CAAPs or through funds. The Fund may invest up to 10% in other funds, including other HSBC funds. The Fund may invest up to 35% of its assets in securities from a single issuer during exceptional market conditions. The Fund may invest up to 10% of its assets in total return swaps and contracts for difference. See the Prospectus for a full description of the investment objectives and derivative usage.

Performance (%)

Performance (%)	YTD	1M	3M	1Y	3Y ¹	5Y ¹
Fund	1.78	1.57	2.21	26.82	9.74	15.90
Reference Benchmark	1.83	1.55	2.27	27.39	10.36	16.59
Tracking Difference	-0.05	0.02	-0.06	-0.57	-0.62	-0.69
Tracking Error	-	-	-	0.13	0.16	0.14

Calendar Year Performance (%)	2016	2017	2018	2019	2020
Fund	0.49	52.95	-19.25	22.62	28.50
Reference Benchmark	0.90	54.07	-18.88	23.46	29.49

Past performance is not an indicator of future returns. The figures are calculated in the share class base currency, dividend reinvested, net of fees.

Risk Disclosure

- The Fund's unit value can go up as well as down, and any capital invested in the Fund may be at risk.
- The value of investible securities can change over time due to a wide variety of factors, including but not limited to: political and economic news, government policy, changes in demographics, cultures and populations, natural or human-caused disasters etc.
- The Fund may invest in Emerging Markets, these markets are less established, and often more volatile, than developed markets and involve higher risks, particularly market, liquidity and currency risks.
- To the extent that the Fund seeks to replicate index performance by holding individual securities, there is no guarantee that its composition or performance will exactly match that of the target index at any given time ("tracking error").
- Derivatives may be used by the Fund, and these can behave unexpectedly. The pricing and volatility of many derivatives may diverge from strictly reflecting the pricing or volatility of their underlying reference(s), instrument or asset.
- Investment Leverage occurs when the economic exposure is greater than the amount invested, such as when derivatives are used. A Fund that employs leverage may experience greater gains and/or losses due to the amplification effect from a movement in the price of the reference source.
- Further information on the Fund's potential risks can be found in the Key Investor Information Document and Prospectus.

The HSBC ETFs are sub-funds of HSBC ETFs plc, an investment company with variable capital and segregated liability between sub-funds, incorporated in Ireland as a public limited company, and is authorised by the Central Bank of Ireland. The company is constituted as an umbrella fund, with segregated liability between sub-funds. Shares purchased on the secondary market cannot usually be sold directly back to the Company. Investors must buy and sell shares on the secondary market with the assistance of an intermediary (e.g. a stockbroker) and may incur fees for doing so. In addition, investors may pay more than the current Net Asset Value per share when buying shares and may receive less than the current Net Asset Value per Share when selling them. All applications are made on the basis of the current HSBC ETFs plc Prospectus, relevant Key Investor Information Document ("KIID") and fund supplement, and most recent annual and semi-annual reports, which can be obtained on our Internet Website : www.etf.hsbc.com or upon request free of charge from HSBC Global Asset Management (France). The HSBC ETFs are managed by HSBC Global Asset Management (UK) Limited, 8 Canada Square, Canary Wharf, London, E14 5HQ, UK, a management company authorised and regulated by the Financial Conduct Authority. Restrictions: The shares in HSBC ETFs plc have not been and will not be offered for sale or sold in the United States of America, its territories or possessions and all areas subject to its jurisdiction, or to United States Persons.

Please note that funds included in this material may be covered by regulations outside of the European Economic Area (The EEA). Local regulations may vary, and can potentially impact your right to funds.

Terms of Glossary

Accumulation Share: a type of share where the income earned by the Fund is retained in the Fund

ACD: HSBC Global Asset Management (UK) Limited, the Authorised Corporate Director of the Company

Developed Markets: countries with relatively high levels of personal income and established economies

Emerging Markets (EM): countries that are progressing toward becoming advanced, usually shown by some development in financial markets, the existence of some form of stock exchange and a regulatory body

Equities: shares issued by a company

Growth: the increase in the value of investments

Income: money generated by a fund, such as interest from a bond or a dividend from a share, which can be paid out to its investors or paid back into the fund and reinvested

Income Share: the type of Share where the income earned by the Fund is paid out to you

Net Asset Value (NAV): the value of the scheme property of a fund less the liabilities of the fund

Ongoing Charges Figure: a measure of what it costs to invest in a fund. It includes the fee paid to the ACD and other operating costs

Return(s): the money made or lost on an investment

Share(s): an equally valued holding in a fund of a company, representing part ownership of that fund, (including larger denomination shares and smaller denomination shares)

Tracking Difference: the difference between the return of the fund and that of the tracking index

Tracking Error: the volatility of the difference between the return of a fund and the return of the index or indices it tracks. In general, the lower the tracking error, the more consistent a fund's performance is relative to the index, and vice-versa
