## Monthly Report – 31st October 2023

UK & EU – For professional and institutional investors only

Switzerland - this is an advertising document for professional and institutional clients as defined by the Swiss Financial Services Act only

### Investment objective

The Fund aims to provide positive returns of 6-7% along with reduced equity beta over the medium to long term. A Core portfolio of defined return equity investments will be used to provide capital growth over the medium to longer term, in all but extreme negative market scenarios. The Fund will make a smaller allocation to Diversifying investments that also meet strict capital preservation and investment return criteria.

### The Fund Will

- Invest in major equity index-linked defined returns with a maximum of two underlying indices per investment.
- Maintain 100% high quality sovereign debt counterparty risk (no bank credit).
- Manage drawdowns and volatility through a protection overlay.
