### Risk considerations

**Credit risk:** A decline in the financial health of an issuer could cause the value of its bonds to fall or become worthless.

**Liquidity risk:** In difficult market conditions, the fund may not be able to sell a security for full value or at all. This could affect performance and could cause the fund to defer or suspend redemptions of its shares.

Please see the KIID and Prospectus for a full list of risk considerations applicable to this fund.

### Benchmark and corporate action information

Some performance differences between the fund and the benchmark may arise because the fund performance is calculated at a different valuation point from the benchmark. The fund's performance should be assessed against its target benchmark, being to exceed the Bank of America Merrill Lynch 15+ Year Non-Gilt (Gross Total Return) index. The investment manager invests on a discretionary basis and is not limited to investing in accordance with the composition of the benchmark. On 01.07.2017 the ICE BofAML 15+ Year Non-Gilt Index (GBP) replaced the ICE BofAML Non Gilts All Stocks Over 15 Yrs.
